ANNUAL SCHOOL JOURNAL 2023-24

JUNIOR SCHOOL

CONFLUENCE OF ART AND IDEAS OF OUR STUDENTS

Dear Children,

School is a place where we learn to manage you at your simplest so that we may deserve you at your best. On your part, you need to learn how to be at your best. We are here on earth only once but if we learn how to be our best at all times, then, being here on earth only once is enough. Learning to be at our best at all times, is a challenge. And school is a place where you come to learn that.

Therefore, learn well. So, you can live well.

May God bless you and keep you safe!

**LN Goel
Management Trustee**

Dear Students,

2023 was the year of acceptance but I will tell you what is unacceptable. Acceptance is always an input. It works well within any system. But in order to grow, we need to work away from 'system'. Away from structure. Away from central play. We need to go outside these. We need to stop capitalizing all the time. We need to pause the game and question the game. For example, we need to ask, "Is my main responsibility acceptance of my participation?" What is the alternative? Philosophers are the alternative. They question everything. It is their main incentive to be philosopher. But are you a philosopher? Or do you represent the general run of humanity? If you are a general representation of humanity, then you are dominated by a set plot. You think in symmetry. Your organization needs you to survive and exist.

A philosopher's life's theme, on the other hand, is unacceptability. To be the alternative, you need to slowly separate yourself from the web. Nobody should be able to say for sure where you are at any given point of time. Let me try to say what we are and what we need to be, in a sentence: we are still only debuting as a species. This is totally unacceptable!

All the best!

**Ankit Goel
Chairman**

Dear Parents, Teachers and Students,

As the Cricket world cup 2023 came to an unexpected end in Ahmedabad wherein Australia won; every face was dejected, and a tacit agreement that this is not a moment of celebration lay heavy in the environment....however, you could see a 8 year old girl standing and clapping in all her innocence, without any prejudice that the winning team was not the Indian team. A lesson is to be learned from this solitary child celebrating a win. The acid test of a person is gauged when s/he is faced with an unpleasant or abrupt deviation from her or his expectation as this experience leads to an emotion.

What is your inner emotion at these moments: you cringe internally/make angry gestures externally. Our senses perceive situations around us which is then processed through the brain and there is a reflex because we put our expectations, experiences, emotions into the senses. The mind thereby reacts....

This is antithetical to what this year's theme 'Uketamo' teaches us. Sensing without thoughts, expectations and experiences is 'Uketamo'. This is tougher to do than say of course. A powerful philosophy, UKETAMO, that has implications for all of mankind has been developed over the centuries in Japan.

Called Uketamo (oo-keh-ta-moh), the philosophy succinctly encompasses the lessons learned from nature through countless generations. Uketamo has a long history. There's a little known mountain region in northern Japan called the Dewa Sanzan that has been used as training ground for the Yamabushi monks who train in the austerities in the mountains for over 1,000 years. The master, called a Sendatsu, tells the Yamabushi to climb Mt. Haguro. The only response allowed is Uketamo. Your master tells you to get under the waterfall for meditation.

The response- Uketamo.

Uketamo means acceptance to the core what we cannot change. The Yamabushi understood that the sooner you can accept the things that life throws at you, the better off you are in the long run... and it works!

So the next time you feel overwhelmed or have a desire to vent your emotions, try UKETAMO. It may be like going for a detox session once you learn the philosophy of UKETAMO.

Embracing Artificial Intelligence along with the skills of reasoning, critical thinking and integrity

Ms. Kavita Lal
HeadMistress- Primary

Change is constant and adapting to change has never been easy. When Thomas Edison introduced the electric bulb, it was thought to be witch craft and people refused to accept it. He had to take out a procession with people holding lit bulbs to convince the public that the light bulb would bring no harm!

Today we are faced with a similar situation. The onset of the latest Artificial Intelligence products like Chat GPT or Gemini are being looked at with skepticism and possible harmful effects are being predicted. Many people feel this might lead to plagiarism. Some say that children and adults will get used to not using their minds. There is also a probability of information or news being fake.

Every new theory or technology has pros and cons. Perhaps, if we had resisted the invasion of the light bulb, the world would not have been facing such a crucial challenge of depleting energy resources and increasing toxic air! Just like the light bulb, Artificial Intelligence and information technology is meant to improve lives. If the content is monitored, this tool can be very beneficial to students. Parents and teachers can choose what they want children to watch or use. Having a dialogue about the content or watching/using it together helps to decipher the ideal content. Unmonitored device time may lead to social or emotional concerns. Unscheduled device time might lead to the serious issue of internet gaming disorder. Artificial Intelligence mimics the human brain—how we gather facts, descriptions, comments, images and other information to logically absorb it and use it all to complete a particular job. AI makes all the information immediately accessible to us and completes the job on hand in a much lesser time. As Albert Einstein famously said, “The mind that opens to a new idea never returns to its original size.”

Young students with poor reading fluency or weak eyesight benefit from the text to speech tools that Artificial intelligence provides. Similarly, children who find it difficult to write can use AI to put their thoughts and ideas to words. AI powered grammar programs can help to fix grammatical errors and improve writing. Learning new skills like baking a cake or speaking a new language are accessible to everyone with the help of AI. Every time a child watches TV, he or she is learning new vocabulary and new ideas.

Studying AI and related topics like coding and machine learning teaches computational thinking, problem-solving, critical thinking, and more. AI is here to stay and for it to be a win-win situation for all, we adults need to catch up and learn about the inroads made in this field in order to be comfortable with AI and use it to our advantage. What we do need to teach our children is to question everything and look at logic. Dig deep, explore, analyze and reason before believing something. It is a bit like the jackal who got dyed blue and pretended to be the God`s messenger. This Panchatantra tale was telling us not to believe everything and keep your wits about you to identify deep fake!

Cultivating Character: The Essence of Early Education

Ms. Sangeeta Bagchi

HeadMistress- Elementary Years Programme

In the symphony of learning, early education plays a pivotal role in composing the melody of a child's character. It is here, in the tender years of youth, that we must sow the seeds of values that will blossom into virtues. As Albert Einstein once remarked, "Education is what remains after one has forgotten what one has learned in school." This sentiment encapsulates the profound impact of early education on shaping enduring values. Consider the parable of the wise old oak tree. Its strength lies in the depth of its roots, just as a child's resilience is anchored in the values instilled during their formative years. Discipline becomes the sturdy trunk, perseverance the branches that weather storms, and kindness the leaves that rustle in the gentle breeze of empathy. In the mosaic of character building, each small act of respectfulness and humility contributes to the grand masterpiece of a well-rounded individual. Just as a single raindrop joins others to create a mighty river, the amalgamation of these values forms the bedrock of a harmonious society.

Early education isn't merely a syllabus to be covered but a canvas on which the brushstrokes of virtues are painted. It is an investment in the future, where the dividends are measured not just in academic success but in the quality of human beings we send forth into the world.

Let us remember, in the journey of education, values are the golden threads that weave together the fabric of a compassionate, responsible, and resilient society. As we navigate the corridors of early education, let us ensure that the echoes of values resonate in the hearts and minds of our youth, for they are the architects of a better tomorrow.

In this profound journey of shaping character, we, at Suncity School, are steadfastly driven by the recognition of the paramount importance of sanskars. As educators and mentors, our commitment extends beyond imparting knowledge; it encompasses the cultivation of values that will guide our students toward a future of empathy, resilience, and purpose. The corridors of Suncity School echo not just with academic excellence but with the harmonious cadence of respect, discipline, kindness, and dedication. Together, we strive to nurture individuals who will not only excel in their endeavours but will also contribute meaningfully to the world. For us, education is not just a means to an end; it is a transformative journey that molds young minds into compassionate and responsible leaders. In embracing the essence of sanskars, we embark on a collective endeavor to create a brighter, more harmonious future for generations to come.

A TREK TO EVEREST BASE CAMP

I am Adhyayan Sharma, an ordinary 11-year-old, who one day decided to go to the Everest Base Camp with his father. I had no idea what this was, how difficult it was but I thought I'm so fit, I play a lot of sports and I would be able to do this without any problem. Oh boy! I was wrong.

The trek began in Kathmandu, Nepal. We reached Kathmandu and met our guide and the other people. Let's skip the part in Kathmandu, otherwise it will take ages to finish the story, The proper trekking started from Lukla, a small town in Nepal. It was a lot colder in Lukla when compared to Kathmandu. In Lukla, we had lunch and started trekking. The first day was like a walk in the park, there were proper roads, no boulders and so it was very easy. We reached Phakding where we really found out what our rooms are going to be like, chilled like freezer and the blankets PAPER THIN!

The next day was a big trek, there was a 1000m gain in altitude. We had to go to Namche Bazaar and it was a very steep climb. I was almost dead on the way, the first two hours I was running leaving behind everyone. After those 2 hours I couldn't walk because of AMS (Acute Mountain Sickness) and my head was aching severely, but I just kept pushing myself. After what felt like a year, we reached! In Namche Bazaar I got so sick that I couldn't eat food. I had such a bad headache that I and my father almost gave up and thought about going back. Eventually, I went to sleep and when I woke up, I got scolded by my guide because if anyone goes to sleep, then the body doesn't acclimatize to the climate.

After five more days of rigorous trekking, we finally reached there! That means you are trekking at 5000m above sea level, so I couldn't walk, every step I took was in pain. When we sat down to eat lunch, I started weeping because my headache never let go of me and I kept thinking to give up, but my father didn't let me give up. I used every ounce of strength I had and reached the Base Camp! It was so windy and the temperature was unbelievable -25 degrees Celsius! Finally, I had reached and then I gave my father a big HUG and said, "Thank you for this." The joy on everyone's face cannot be explained in words. This was an experience that I would never forget.

I have become the **YOUNGEST PERSON TO REACH MT. EVEREST BASE CAMP FROM GURUGRAM**, and my success story was published in **THE TIMES OF INDIA**. Never give up on your dream!

Adhyayan Sharma

ONE FOR ALL-ALL FOR ONE

Beside the beach, the sea flows,
In the night, the stars glow
We play in the garden while birds fly,
Soaring up high in the mighty sky.

Why is the ocean so blue?
Why is the grass so green?
What in the world have I really seen?
All this while, where have I been?

From a small bean to a big mountain,
And in between, a medium fountain,
Neither too hot, nor too cold,
Neither too fluffy, not too bold.

You may be an Indian, Malaysian or
Indonesian,
But we all are one and together we can have
fun.

Underneath the warmth of the Sun.
So together we say,
One for All, All for One!

Samaya Dua
V-C

V-H

THE JOURNEY OF LIFE

This is life,
A fleeting dance,
Moments of joy,
And circumstance.
One step forward,
Two steps back,
We stumble and fall,
But never lack.

Through highs and lows,
We must endure,
Embracing each moment purely,
What else could it be? It's life surely!

OPEN YOUR CREATIVE MIND!

Have you ever wondered how the people from the olden times worked and communicated? Have you ever thought what the world would be like without AI or Artificial Intelligence? Whenever you open up your device to do a research project, the first thing that gets opened is Google. All these modern devices have changed the world. Decades ago, people did not have these smartphones and computers, so they used landlines and telephones to communicate. Our parents remembered the phone numbers so that they could call their friends and relatives. And today??

Using AI has its own pros and cons. One of the advantages of AI is that it makes our work easier. But more than that, it has some major disadvantages. The biggest being, it is completely killing human creativity. These days (and many people do this), whenever they have to make a presentation or write an essay, they open up their Chatbot and ask it to do the needful. They even use the AI program/app to write a simple email. Nowadays, people are forgetting to use their own brains and completely neglect their own brilliant ideas. They just open up their AI app/program and take ideas from there instead. The thing is, we are turning a blind eye to what is actually happening due to the usage of AI these days. We should stop this now as we need to open our creative minds to work!

Before it's too late, we have to stop using these AI programs. We would definitely not like to have our lives' control in the hands of AI. So, let us be more mindful and thoughtful before we even think of typing AI on our browser! How about reading more books? It helps boost your creativity plus opens your mind, and helps you form more innovative and original ideas. Just like this, having more friends also helps, as staying in a friendly environment helps you relax, and you will be able to think more logically.

So, think about it...

It's time for you to open your OWN creativity kit!

PS: - This article is my own creation, and was not done by an AI powered app. I opened my creativity kit, and it's your turn now!

V-B

THE DRAGON CRISIS

When we think of dragons, we think of fire, rage, danger and what not. But there is a soft side to everything tough. So today I ask you.... Do you want to see a dragon? If yes, then continue reading!

Far beyond the limits of this world, but on this earth lies a city of dragons. May be down below or may be high above. Can I trust you? Okay, let's go!

If we dig deep enough, we find a tunnel of colours and slide through to reach Dragon's Lair Café a.k.a. the entrance to this world. Let me tell you one thing, do you know that dragons also have problems? Yes! The majestic beings that seem to worry about nothing! Come and have a look.

There was a big problem going on in the dragon world. A civil war between two main dragon clans had been raging for months and many dragons had already lost their lives. The dragon king, who was a wise and fair ruler, had been trying to find a way to end the fight. He had reached out to his allies, including humans, to help find a solution. But the situation was dire, and it seemed like they might not be able to come up with a resolution in time. It was a tough time for the dragon world, and everyone was hoping for a way out of this conflict. And it had been taking the lives of dragons of other clans, the innocent dragons. Their beautiful world which once had been prettier than heaven, was now burning!

Finally, with the help of their human allies, the dragon king was finally able to negotiate a ceasefire between the warring clans. It wasn't easy, but after much discussion and compromise, the dragons were able to find a way to co-exist peacefully. The dragon king was praised for his leadership, and many dragons on both sides were happy to see an end to the conflict. A few years passed by. Over time, the dragons were able to rebuild their world, and they even invited their human allies to visit and see the progress they had made. It was a new era of cooperation and understanding between the dragons and humans, and everyone was grateful for the chance to live in peace.

Did you understand the message of this story? If aggressive and competitive creatures like dragons can co-exist, then why can't affectionate and smart beings like humans? So, stay happy and satisfied with what you have.

Kimaya Roy

INDIA OF MY DREAMS

Where everyone is grateful,
Everyone is calm,
Greenery is blooming,
Looking like a quaint farm.
Oh! I would dream of India of my
dreams,
Where everyone would be kind and
nobody screams.
The nation should have some peace,
Everyone should be equal and plant
many trees!
India was once 'The Golden Bird',
The world was ours, and it wasn't
absurd.
It's a land of rich culture and
diversity,
However, I wish India was clean for
all to see.
There would be love and,
A perfect you and me!

WARS NO MORE

Friend, I like to play games,
But not the game of tug of wars,
I'd rather chase the morning sun's golden
rays,
In the meadows, where laughter freely
soars.
Wars create barriers between humans,
Dividing hearts, causing endless wounds,
But in the realm of games and fun,
We find a way to heal and commune.
So, let's choose joy, not strife and hate,
In this world, where love can still be found,
Together we can celebrate,
The beauty of unity, the joy that's
unbound.
Lastly, I would like to play the game of
hugs,
Where laughter blooms without frowns and
shrugs,
In the garden of friendship, we are all
doves,
Tugging at heartstrings with the beauty of
love.

DAYS IN SCHOOL

Another day in school,
Another day under grown-ups' rule;
Another day to chit-chat,
Another day to do this n' that.

Another day to learn new stuff,
Another day to take home quite enough,
Homework sometimes proves to be tough,
The teachers are wise and not easy to bluff.

At times they are as sweet as a sugar bun,
School is the place for study and fun,
And the perfect place to socialize,
And also, to win a prize!

Another day in school,
Another day with friends who are cool!
Another day to learn new games,
Another day to have new aims.

School is the place to learn new things,
A place to grow and spread our wings,
For us to use them to fly above all.
And to always stand tall!

THAT IS LIFE

Life keeps changing,
From good to bad, it keeps ranging.
Don't cry for what you don't have,
Be happy with what you have.
We should make the most of our lives,
For every achievement, give yourself high-fives.

Life is a great experience,
Live it with some fun and recreation.

Have some fun,
Play in the sun.
Have a good run,
Enjoy a good pun.

This is life!
Play it wise,
Win a prize.
Enjoy! Enjoy!
Play with a toy,
Increase your joy, Enjoy! Enjoy!

RAGHU AND AMMU

There the flowers bloom,
Like an eternal boon,
Where the sun shines,
Two elephants wake up to the morning light!

Raghu on the left and,
Ammu on the right.
Sleepy from their slumber,
They walk together with their trunks asunder,

Out to the valley they go,
To graze in the maze.
Rolling down the hill,
To have their food in a daze,

They may be in a cranky mood,
Off they went to the shimmering lake,
To bathe in the shining waters,
They go for their own sweet sake.
With their trunks, they pick up bamboos,
Oh! The lovely Raghu and Ammu!

POLLUTION NEEDS SOLUTION

Jaivik Chanana
V-H

We are all inhaling pollution,
A big problem, hence, I mention,
Hurting everyone, so it needs attention,
Have you ever thought of a solution?
I can find birds around me dying,
I hear trees and plants crying,
I see weeping leaves lying,
Are we all really trying?
Think of it while we can,
We need to make a concrete plan!

THE POWER OF ENVIRONMENTAL AWARENESS

How can we promote environmental awareness?

1. **Learn:** Begin learning more about nature, animals and environmental issues. Your teachers and parents can help you with this.
2. **Reduce, reuse, recycle:** In your daily life, practise these three magic words. Use less, reuse things like bags and bottles and recycle what you can.
3. **Save energy:** Turn off lights and electronic devices when you're not using them. This helps save electricity and protects the environment.
4. **Plant trees:** Trees are like Earth's lungs. Plant trees in school or community and take care of them.
5. **Join environmental clubs:** Many schools have clubs that focus on nature and the environment. Join one to meet like-minded friends and work on protecting the planet. In Suncity school, it is called the 'Green Brigade' club.
6. **Share your knowledge:** Tell friends and family what we have learned about the environment. We can inspire them to make eco-friendly choices too.

Conclusion

By understanding and spreading environmental awareness, we can play a vital role in protecting the Earth for ourselves and future generations. Together, we can make the world a cleaner, greener and healthier place. So, let's embark on this exciting journey of becoming responsible and informed environmental warriors!

Naksh Gaba

RAINBOW WITH NO RAIN

Jia Mehta
V-G

I wake up in the morning,
And walk out the door,
I look through the window,
And see the vibgyor.
I was so engrossed in the rainbow
with no rain,
That I forgot I had to catch a train.
Now from the train, I could see the
rainbow,
More beautiful than ever,
Until it was time to leave,
And the driver pulled the lever.

THE ADVENTURE PORTAL

Rahul came back home giddy with excitement from his prestigious middle school named 'Genius Middle School'. He was holding a blinding white envelope with his teacher's signature on it. He passed it onto his sweet mom, who looked stunned while reading the contents of the paper. It was Rahul's report card, he had topped the state, with a mind-blowing average of 98.5! His mom embraced Rahul in a big hug. Tonight, at supper, Rahul's dad also saw the report card, and was super-happy. Rahul's father planned a thrilling trip to an amusement park. They set off next weekend with high spirits. They reached about an hour later. They bought a ticket and walked towards the rides. They did several adrenaline-spiking rides, and some topsy-turvy ones. But while on a speedy rollercoaster, they witnessed the track ahead fall and a portal appear just before that. They went into the portal along with the roller-coaster.

The roller coaster dumped everybody into the water in a completely different world, and then broke down into pieces. Everybody was terrified at first, but upon looking about, they realised that they were in the middle of a beautiful forest with loads of tall trees and undergrowth. Everybody teleported there had an amazing experience in the nature, away from all hustle and bustle, but they had to go back now. But the roller-coaster was broken!

Some people started crying and got frightened. Suddenly, Rahul spotted a hut behind a tree. They strolled over there and knocked. A mage greeted them with a stick that he shoved them away with. He angrily came out. He said, "How dare you disturb me?" Rahul explained, "We got teleported here, so can you help us get back?" The mage grinned and swung his magic wand teleporting them back. Surprisingly, nobody knew anything about their disappearance. Rahul and his family had had quite an adventure. They returned home, intrigued by the day's happenings!

THE DAY I FLEW

One day on a boring morning, I woke up feeling a tickle on my feet. I thought it was just the wind and ignored it. Then I took a bath and dressed up, and when I was having my breakfast, I again felt the same tickle on my feet. I went to the garden while thinking about it and started jogging. Somehow, I felt myself floating in the air. So, I looked down and I was flying!

At first, I was truly shocked and could not believe it. Then I took a loop in the air and felt a sudden excitement rising in me. I went above the clouds and had lots of fun. I took loops in the air, jumped up and down on the clouds and saw many birds. What a pleasure it was! Then I went to show my best friend what I could do. At first, she too didn't believe me, then she asked me to give her a ride up in the sky. I held her hand and took the flight. She was amazed to touch and feel the clouds. Then both of us flew higher and went into the Solar system. We saw amazing lights. It was very beautiful over there. Finally, night arrived, and we touched the stars, and had lots of fun. It was the best day ever!

MY MOTHER

You are my teacher,
You made me a human from a
creature,
You always taught me to be loving and
kind,
You taught me to use my own mind.

I guess I have learnt from the best,
That's why I have courage to stand out
from the rest.

You are my inspiration,
You give me aspiration.

You are my mother,
I love you like no other.
Thank you for loving me and taking
care,
Because that is the biggest dare!

A MEMORABLE DAY IN MY HOLIDAYS

The holidays had just begun and I was excited to be at my grandma's house. The moment I entered, I was besieged by my dear cousins. It was a bitterly cold day yet profoundly beautiful because of the merry company I was in. 'My cousin gang', promptly pulled me along to play with them. We played various games, had scrumptious food and made the best memories possible in each other's joyous company. While we were still running about, we found grandma frantically searching for her spectacles. This wasn't the first time she had misplaced them. She usually puts them somewhere and then feels terribly disturbed about it. We investigated every corner of the house, under the chair, on the bed, in the place of worship, in the drawers and even on her head. Not kidding! It has happened before that she has worn them on her head and has been looking for them. To our dismay, we couldn't find them. So, we decided to be detectives. We enquired about the activities grandma had done during the day- She had talked to my aunt for an hour, so we checked the room where she sat. Then she had taken a bath, so we checked the washroom but all in vain. Then a neighbour had come with a box of laddoos, and they sat gossiping over a cup of tea. We immediately checked the dining table and to our disbelief - a half-eaten laddoo and her specs were lying inside the laddoo box! We all laughed our hearts out. We decided to gift her an extra pair of spectacles. She loved her gift.

WATER

When the days are hotter,
You need lots of water.
Every drop saved is conservation,
A gift to a parched nation.

No tossing jute or waste in the flow,
Preserve the liquid lifeline's gentle flow.
Guard the waters, don't let pollution seep,
In nature's lap, our promises we keep.

Water is where fish survive,
It is what keeps them alive.
We should not throw in plastic,
Cause sea pollution is drastic!

REDUCE REUSE RECYCLE

Reduce Reuse Recycle
Reduce plastic usage because it's a knife which
harms our life!
A blade that harms our precious existence,
choose wisely now, make a firm insistence.
Reduce Reuse Recycle

Reduce food wastage a blow to every mood!
Let's curb the excess, to waste is crude!
Reuse old paper, refuse fresh paper,
When old finds a new purpose, it is a clever ploy!
Follow the rules and happiness blooms!
Reduce Reuse Recycle

MY LIFE OF FOOTBALL

I began playing football at the age of five, joining football classes for a few months. However, I grew bored as the classes were crowded, leaving me with little to do. The following month saw a decline in participants and over the next three years, I experienced significant improvement. I mastered all the exercises and drills and my skills flourished.

After a few months, my mother decided to withdraw me from the classes. Then I started to think how could I practice football on my own. Then created my own tournament with my friends and I also started to train myself. My own training classes helped a lot. I improved my shooting accuracy and my goalkeeping skills. Also, I did my first perfect rainbow flick. I started practicing with my friends and also started playing matches.

Moral: Practice till you succeed and never give up!

MY BIRTHDAY

**My birthday comes once a year,
And nobody interferes.**

**I turned eight,
And I got to know how to skate.**

**My dress was pretty,
And as gift I got a kitty.**

**I was beautifully dressed,
And everybody was impressed.**

I wore a cap,

And I want to travel all the countries on the map.

**I am born in March,
That's why I like potatoes with starch.**

**My sun sign is Aries,
And I love fairies.**

XANDER - THE ANIMAL WHISPERER

Once upon a time there was a little boy named Xander. He was the son of the Archmage.

Everyone believed that he had magical powers like his father. The day came for Xander to showcase his magical capabilities. The whole city gathered but when he tried to use his magic not even a wisp came. Everybody was shocked!

Xander was extremely disappointed with himself. He went to the forest to be alone. While he was walking the lonely path, he saw a tiny baby deer stuck in a bush. He freed it. Suddenly he heard a voice "Don't fret little one." "Who's there?" Xander asked. A deer came out from behind the trees "It's me." "How did I hear you? The last time I understood a human voice was centuries ago," said the deer.

"Do you mean you had met Archmage!" Xander exclaimed.

"Perhaps," the deer replied.

"I thought I was born with no magical capabilities," said Xander. "But I'm speaking to you, a deer!"

"You helped that little one even in your sorrow. Within you lies both magic and a good heart."

Xander returned to his town and explained everything to his father. His father helped him hone his ability, and Xander became a revered Archmage with the unique ability to talk to animals.

UKETAMO

It's time to overcome fear,
It's time to come out of the rear.

It's time to try,
No time to cry.

It's time to accept the change,
It's time to be the change.
It's time to grow up and beyond.
It's time to expand the wings and fly on.

It's time to learn and be wise,
It's time to be humble and nice.
But first it's time to accept yourself,
And accept what can't be changed.

It's time to bring Uketamo in life,
It's time to make Uketamo base of our life.

FRED AND FRIENDSHIP

Once upon a time, there lived a little fish in the river of Mila. His name was Fred. He was a very playful and sporty fish. He had black shimmery scales and golden eyes. He had many friends. There was Bob the white and orange spotted fish, Anne and Ava the twin parrot fishes and Miles the bronze-coloured angler fish. Fred was a very happy fish. One day he got into a fight with his friends, and they stopped playing together. Even Anne and Ava played separately, even though they were twins! Fred became very sad. They had fought because he had said he was the best at everything, and nobody could ever beat him. Then Anne had said, she was the best and soon everyone was fighting and yelling “I am the best! Not you!”

Fred couldn't take it anymore and said “Let's have a race! Whoever wins will be declared the best!” Everyone agreed. A race was planned. They had asked a friendly crab named Celia to help them start the race.

“READY!” Shouted Celia. “SET! GOOOOO!”

Fred swam so fast! But Miles was the fastest. He was so fast if you saw him, you would only see a blur! Soon they reached Aqua Hill. Fred backed up so he would get more momentum and he swam as fast as Miles! He swooped and made it! Miles landed safely too and shot off like a rocket! Fred was about to zoom off like the others when he realised that Bob wasn't there! He called to Ava who was closest to him and said “Ava! Where's Bob?”

“I don't know! I wasn't really paying attention to him, but I think he got stuck on the other side of Aqua Hill!” Ava replied. Quickly they swam back and pushed at the rock. Bob was free! They all were happy.

“Let's get back to the race!” said Fred. “The others are already far ahead.”

They swam super quick and soon had caught up with the others. Suddenly Anne and Ava stopped and looked at each other. “WHERE IS FRED!” Zipping back, they saw he had got hurt and was tired. Being his friends, they rushed to put themselves under his fins. He smiled and said, “Thank you.”

Soon they reached the top and whizzed out the exit hole. Fred had rested all the time they were swimming up and could swim for the rest of the race. Here I go! thought Fred. And with a whizz he dived deep down.

Suddenly he heard a groan of pain! It was Miles! He had dived down so fast that he had crashed! Bob, Ava and Anne noticed Miles too, and rushed to help him. It wasn't a severe injury, but they would have to carry Miles the rest of the way.

Miles was soon helped up onto Bob and Ava's back as they were the strongest. They crossed the finish line together. Fred said “I'm sorry for being so rude. Now I know that nobody is perfect. The important thing is will you be my fishy friends again?”

“You mean your FFFs?” asked Anne. “Your what?!” asked everyone.

Anne giggled, Fishy Friend FOREVER! “Hooray!!!” shouted everybody. “And YES! We will be your FFF!”

MOM- MY HERO

My mommy shines just like the sun,
Her hugs and love can't be outdone.
She makes me laugh, she makes me smile,
Her caring heart stretches a mile.
When I'm sad or feeling blue,
Mommy knows just what to do.
Her tender touch, her knowing gaze,
Helps us navigate life's maze.
In every race, in every game,
She cheers me on, shouting my name.
With funny faces, she makes me grin,
We're a team, together we'll win.
She's my hero, strong and wise,
I see the love in her eyes.
Through all the years, she stands so tall,
My mother, the one who gave her all.

THE SPARKLING MOON

As the day ends,
And well comes the night,
There appears a moon white.
Sparkling like a star from far,
Just want to grab,
And keep it in a jar,
In the dark
It creates a spark.
The world is dull.
Unless the moon unfurls.
God hung you up as a lantern.
To shine like Saturn
For all beneath the sky.

OUR ENVIRONMENT

In our shared environment, Earth, me and you,
A tapestry of life, animals, birds and humans too.

A somber truth, animals are dying,
Earth is silently crying.

Birds, which once soared, are no longer in the sky.

It's time for change, let our efforts fly.

On our horses, let's embark.

Seeking resources, leaving a lasting mark.

Don't pollute, not by any means,
Keep the planet vibrant, let it stay green.

To save Mother Earth, our solemn quest,
In unity, we shall be at our best.

Animals are dying.

Earth is crying.

Birds are not flying.

Let's save mother earth!

Shanaya Verma

THE CRYING PLANET

The Earth is crying for help and health,
But all we are doing is destroying its beautiful
wealth.

Instead of being mean,
Make our Earth green and clean.
Have pity on the colourful flowers,
They are one of the nature's powers.

Our planet is in pain,
We pray for showers of rain.

To save the environment,
National parks and wildlife sanctuaries have
been made

by the government.

We live on this planet,
It is not any exoplanet.

Earth is the best,
Better than the rest.

संपादिका की कलम से

आप सभी के समक्ष प्रस्तुत है इस वर्ष की पत्रिका | पिछले वर्षों की तरह यह साल भी हमारे ज्ञान, समझ और भावों में नई ऊर्जा को विकसित करने में सफल रहा है | इस वर्ष का मूल विषय 'उकितामो' हमें जीवन के उतार-चढ़ाव में स्थिरता सिखाने के साथ-साथ अपनी शक्तियों और खामियों को अपनाकर उनपर विस्तार और विकास करने की सीख देने में कारगर साबित हुआ। इस पत्रिका में बच्चों ने 'उकितामो' तथा अपने आसपास के विषयों पर लेखनी और शब्दों की ताकत से अनुपम रंग बिखेरा है। आशा है कि रचनात्मकता के सागर में गोते लगाते ये नन्हे लेखक आपके मन के पाठक को गुदगुदाने में संभवतः सफल होंगे।

भक्त और भगवान

भक्त और भगवान में एक दिन हो गई गहमागहमी
भगवन - बोले भक्त से अब पूछ रही ना मेरी
दिन-रात ये मानव तो इंटरनेट में खोया बैठा है
कभी फेसबुक कभी ट्विटर के चक्कर में रहता है
हेश टैग ,शेयर और लाइक ने कर दी लोल हमारी,कर दी लोल हमारी
भक्त - भगवान गलत आरोप है
मैंने अंतरजाल से कई ग्रंथों का सार पढ़ा है
रुठे क्यों हो भगवान आओ सेल्फी लूँ मैं तुम्हारी
मेरे मन के भीतर तुम हो,कल ही देखी ओ माय गॉड तू तुम्हारी
भगवान- पहले नाम मेरा जपता था , अब एलेक्सा और सीरी ही नाम रटे हैं
सुबह और शाम अब तेरे व्हाट्सएप की बलि चढ़े हैं
भोग भी अब तू इमोजी से भेजे कैसा घोर कलयुग है भैया कैसा घोर कलयुग है
भक्त- भगवान इस मोबाइल के ज़रिए हम देश और दुनिया से जुड़े हैं
आजकल तो इसके कारण ही हम
चंदा मामा के द्वार पर खड़े हैं
भगवान- कहाँ बेटा ! छूट गई वह पुरानी दुनिया
छूट गया वह मेल - मिलाप
आज रह गया सिर्फ़ ए आई से प्यार
बेटा बस ए आई से प्यार
बाजारों की रौनक छिनी
त्योहारों की कौन बिसात
बच्चे पार्क से हैं नदारद
सूनी पड़ी अमिया की डाल
यह कैसा मशीनी अविष्कार
भक्त- वाई फाई के सिग्नल से ही व्यापार मेरा चलता है,
बच्चे की पढ़ाई ,घर का सामान और शॉपिंग इसके बिना न जमता है
भगवान - ठीक है, मान गया मैं बात तेरी लेकिन ध्यान रख
इंटरनेट का सही उपयोग करके ही, तू सेहत और ज्ञान पाएगा
होगा तभी तेरा विकास ,जब तू इसे ठीक से अपनाएगा
मोटापा, टेंशन , और स्ट्रेस से तू तभी मुक्ति पाएगा
जब इस इंटरनेट को तू ,समय सीमा में रह कर चलाएगा
जब इस इंटरनेट को तू ,समय सीमा में रह कर चलाएगा!!

मैं हूँ नारद

नारायण ! नारायण ! नारायण !
नमस्कार ! पहचान तो गए ही होंगे आप
भला मेरी तरह नारायण-नारायण का गुणगान
ऐसे किसी को करते देखा है आपने ?
नहीं ना, नहीं देखा ना,
जी, मैं ही हूँ उस परम नारायण का
छोटा-सा भक्त नारद
कोई मुझे कहता नारद
तो कोई नारद मुनि
किंतु मुझे इससे क्या ?
मुझे तो लगी विष्णु की धुनि
ज्ञान का हूँ मैं भंडार
दुनिया को देता नित नए समाचार
लोग मुझे कहें संगीत का उस्ताद
खरताल और वीणा जो रहती मेरे हाथ
मैं ब्रह्मा का मानस पुत्र
साधू, कथावाचक और ऋषि-मुनि
भक्ति के पथ का मैं पथिक भी
देवऋषि, महापंडित, उपदेशक भी
ज्योतिषी, दृष्टा, वक्ता, शास्त्र-प्रवीण भी
किंतु सबसे पहले बस नारायण का भक्त
मैं हूँ नारद ही ।

दिव्या वर्मा
हिंदी अध्यापिका

इस शहर को यह हुआ क्या ?

प्लास्टिक कचरा , पेड़ों को काटना जैसी समस्या हमारे शहर में हाहाकार मचा रही है। मानव द्वारा निर्मित वस्तुएँ वरदान होने के साथ-साथ अभिशाप बनती जा रही है। आजकल प्लास्टिक पर्यावरण के लिए अभिशाप बन चुका है जिससे मुक्ति के भरसक प्रयास किए जा रहे हैं लेकिन हम इंसान अपने शहरों को बर्बाद कर रहे है। छोटे जीवों के प्रति हमारी संवेदना कम होती जा रही है और हम विकास की अँधी दौड़ में हम प्रकृति के विषय में बिल्कुल उदासीन हो गए हैं । हमें प्रकृति और पर्यावरण की वैश्विक और शहरी समस्याओं का समाधान निकालना चाहिए जैसे हमें प्लास्टिक का पुनर्चक्रण कर घर की सजावट की चीजों को बना कर प्लास्टिक की ख़ाली बोतलों का उपयोग करना चाहिए तथा प्रदूषण कम करने में अपना योगदान देना चाहिए।

मेरी दीपावली

आज मेरी बड़ी बहन अविनि मेरे घर आई, वह मेरे घर बहुत समय से नहीं आई थी। जब वह आई, मैंने और मेरे भाई ने उन्हें अपनी चीजें दिखलाई और ढेर सारी बातें कीं। हमने मिलकर रंगोली भी बनाई। शाम को मिलकर हमने पूजा की और फिर हमने बहुत सारे फूलों से घर को सजाया और बहुत मज़े किए। बाद में हमने बहुत स्वादिष्ट पकवान भी खाए। कुल मिलाकर आज का दिन आनंदमय रहा।

लालच का नतीजा

एक बार की बात है, एक छोटे से गाँव में एक आदमी रहता था। वह बहुत गरीब था। अपने परिवार के लिए वह खाना भी नहीं ला सकता था। एक दिन जब वह बाहर घूम रहा था। उसे एक अँधेरी गुफा के पास एक सोने का टुकड़ा मिला, वह तुरंत उठाकर उसे बेचने चला गया। अगले दिन उसे फिर एक सोने का टुकड़ा मिला। कुछ दिन तक ऐसे ही होता रहा। एक दिन उसे तीन सोने के टुकड़े मिले। उसने सोचा कि गुफा में और सोना होगा, इसलिए वह अंदर चला गया। सोने के बदले उसे एक ज़हरीले साँप ने काट लिया और वह वहीं मर गया। इससे हमें पता चलता है कि हमें कभी भी लालच नहीं करना चाहिए और जो हमारे पास है उसी में खुश रहना चाहिए।

मेरी ऑस्ट्रेलिया की यात्रा

मैं अपनी गर्मी की छुट्टियों में ऑस्ट्रेलिया गया था। मैंने वहाँ बहुत मजे किए। मैं अपनी चाचा - चाची, बहन से मिलने सिडनी गया था। मैंने सिडनी हार्बर ब्रिज का दौरा किया और मैंने उस पर चढ़ाई भी की। मैं अपनी बड़ी बहन के साथ कई जगह घूमने गया। मैं व्हेल देखने वाले क्रूर्ज़ पर भी गया, यह बहुत रोमांचक था उसके बाद मैं मेलबर्न गया जहाँ मैंने मेलबर्न क्रिकेट ग्राउंड, प्रिंसेस थिएटर और विंटर थीम पार्क देखा। वहाँ बहुत सारी जगमगाती प्रकाश की झालरें थी। मैंने प्रिंसेस थिएटर में हैरी पॉटर और शापित बच्चे का नाटक देखा। मैंने फिलिप द्वीप पर शाम के समय पेंगुइन को पानी के किनारे से बाहर आते देखा। मैं उन्हें देखकर बहुत उत्साहित हुआ !! मुझे ऑस्ट्रेलिया की प्राकृतिक सुंदरता और मौसम पसंद आया और उम्मीद है कि मैं जल्द ही वापस जाऊँगा।

इंटरनेट हम

इंटरनेट हमें दुनिया दिखाता
ज्ञान विज्ञान की बातें बताता
बैंकिंग घर बैठे हो जाती
बिल जमा करने का झंझट न आता
खत्म हो गई सारी लड़ाई
बाजार की चीज़े घर पहुँचता था
आसान हमारी दुनिया बनाता
पर
यह बहुत से नुकसान भी करवाता
सेहत और पैसे का महत्त्व खोता जाता
हिंसक छवियाँ जीवन में लाता
युवा वर्ग को गुमराह बनाकर
उनके लिए घातक बन जाता

नव्या सतापथी
पाँच -अ

इंटरनेट

जीवन का आधार बन गया है इंटरनेट
खुशी का भंडार बन गया है श्रीमान इंटरनेट
इंटरनेट जी सबको इस तरह भाया
लगता जैसे स्मार्ट टीवी, स्मार्टफोन का युग है
आया
हँसना, रोना, गाना सब अब इसी पर आया
अपनों से प्यार का इज़हार भी इस पर कुछ
समझ ना आया
गूगल चाचा, अलेक्सा मामी का रंग है सब पर
छाया
अब तो लगता है इंटरनेट ही है जीवन का हल
इसके बिना ना बीते अब इक भी पल ।

प्रकृति

यह दुनिया इतनी सुंदर है
छाई हर तरफ हरियाली है
गर न होती हरियाली तो
सोचो हम सब क्या करते ?
जीवन कितना मुश्किल होता
साँस भी हम कैसे भरते ?
देती रहती हमें सदा सब
पर हम सब, कुछ न करते
प्रकृति यदि न होती तो
जीते जी हम सब मरते
अब आई बारी हमारी है
हम पीछे ना हटेंगे
प्रण लेते हैं माँ
आप का ध्यान हम रखेंगे ।

जल है कितना अनमोल
समझो तुम इसका मोल
जल देता हमको जीवनदान
बचाकर इसे तुम बनो महान
पानी बचाओ ,पानी बचाओ
बिना बात न पानी बहाओ
बिन पानी के हम जी न पाए
फिर पानी क्यों व्यर्थ बहाए
जल संरक्षण है मेरा सपना
ताकि खुशहाल बने भारत अपना
जल देता हमको जीवन दान
बचाकर इसे तुम बनो महान

विदुषी डुरेजा
चार- ग

जल को बचाना है वरना कल पछताना है
जल है अनमोल इसका नहीं है कोई मोल
किसानों के जीवन का आधार
इसी से तो जीवित यह संसार
नदियों की बहती धारा
बस यही तो है हमारा सहारा
जल से ही धरती पर जीवन
जल से ही वन और उपवन
जल है हमारी अमूल्य धरोहर
मत करो इसे बर्बाद हर पल
प्रकृति का वरदान है, स्वाभिमान है
कर लो आज यह प्रण
आने वाली पीढ़ी के लिए सुरक्षित रखेंगे हम
जल को बचाना है वरना कल पछताना है
यही हमारा नारा है इसको अमल में लाना है ।

वंशिका गिरि
चार- ग

पानी बचाओ पानी बचाओ
बिना पानी हम जी न पाएँ
फिर पानी क्यों व्यर्थ बहाएँ
जल है जीवन का आधार
जल को न करो बेकार
मत करो इसको बर्बाद
इतना तो आप रखो याद
प्यासे ही आप रह जाओगे
अगर पानी क्यों व्यर्थ बहाएँ

शौर्य गुप्ता
चार-स

जीवन के लिए ज़रूरी है जल
दल में चल बचाने जल
बचाओ-बचाओ अपना कल
चखो कल के मीठे फल
जल है एक अनमोल रत्न
इसे बचाने का करो जतन
जो भी करे इसकी परवाह
उसकी जग में वाह भई वाह।

हमारे लिए ज़रूरी है जल
जल ना होगा तो होगा ना कल
तो अपने घरों में बंद करो नल
और आराम से खाओ मीठे फल
ऐसा बनाओ एक दल
जो सुरक्षित करे हमारा कल
अगर जल न बचाओगे
तो फिर पछताओगे
फिर कुछ न कर पाओगे
बस हाथ मलते रह जाओगे

चार- ग

जल ही जीवन है हमारा
जल को है हमें बचाना
काम आता है ये बहुत हमारे
बिना जल के हम फिरते मारे-मारे
खाना बनाना सब्ज़ी, फल धोना
बिना जल के ये सब न होना
कपड़े बर्तन सब इससे धुलते
ये न हो ना तो हम क्या करते ?
नहाते इससे मुह-हाथ धोते
ये न होता तो हम साफ़ न रहते
जीने के लिए ज़रूरी है पानी
अगर बर्बाद करो तो तुम्हें याद आएगी नानी
जल ही जीवन है हमारा
जल को है हमें बचाना
बहने दोगे अगर इसे तुम्हें पड़ेगा पछताना ।

विषय एक विचार अनेक

प्रकृति के लिए ज़रूरी है जल
बचाओ जल अगर चाहिए कल
आओ बंद करते हैं सारे नल
बढ़ो चलो बचाने जल
बचाएगा जो कीमती जल
याद रहेंगे उसे यह पल

अनिका मिश्रा
चार - फ

सोचो क्या हो ? अगर न हो जल
तो कैसे मिलेंगे खुशी के पल ?
आओ जाएँ थोड़ा संभल
बचा लें अपने भविष्य की फसल
वरना आगे पछताएँगे
जब बिन पानी, जी न पाएँगे
प्यारी धरती को भी गवाएँगे
अगर अभी संभाल न पाएँगे।

अव्युक्त शर्मा

पानी को बचाओ
व्यर्थ जल न कभी गिराओ
पानी अनमोल है
जीवन को देता मोल है
पानी के बिना धरती है रूखी-सूखी
न रह पाएँगे हम खुशी-खुशी
जल से ही सब जीवन पाते
जल बिन जीवित न रहे पाते।

रायन मेहता
चार-स

स्वच्छ जल है हमारा प्यारा कल
ये है हमारा असली फल
ना डाले हम कूड़ा पानी में आजकल
ताकि हम उससे बनाए अपना नया पल
हमें करना चाहिए इसका कम मात्रा में उपयोग
क्योंकि और नहीं हैं इसका कोई विकल्प
ना हैं हमारा कोई नारा
ना बचेगा हमारा जल बेचारा

अर्जुन गनेरिवाला

माँ

माँ बिन जीवन है अधूरा
माँ करती हम सबको पूरा
खाना पहले हमें खिलाती
बाद में वह खुद है खाती
अच्छे-अच्छे पकवान खिलाती
बड़े मज़े से गोद में सुलाती
हमारी खुशी में खुश हो जाती
हमारे दुःख में खुद रो जाती
तू है कितनी भोली-भाली
ममता की तू है प्याली
माँ तू कितनी प्यारी-सी
दुनिया में सबसे न्यारी-सी

बारिश

जब आकर बारिश गाती है
चिड़ियाँ चहचहाती हैं
नदियाँ गीत गाती हैं
कलियाँ मुसकाती हैं
तितलियाँ गुनगुनाती हैं
मिट्टी से खुशबू आती है
जो सबके मन को भाती है
खुशियाँ फैल जाती है
सब पर मस्ती छाती है
दादी चाय बनती हैं
नानी हमें पिलाती हैं
मम्मी पकौड़े बनाती हैं
हमारी भूख को मिटाती हैं

सर्दियों की छुट्टियाँ और परिवार से मिलने का कार्यक्रम

इस बार सर्दियों की छुट्टियाँ मेरे लिए कुछ खास थीं क्योंकि इस बार मैं अपने पूरे परिवार के साथ अपनी नानी का जन्मदिन मनाने उनके घर गया था। मैंने अपनी नानी के लिए एक गाना भी गाया। नानी ने तो खुश होकर मुझे अपने गले से ही लगा लिया। हम सबने एकसाथ खूब मस्ती की और अपने मज़ेदार पलों को साँझा किया। हम सब ने नए साल की शुरुआत कुर्ग से की। हमने वहाँ लहलहाते कॉफ़ी के पौधे देखे और वहाँ के शहद का आनंद लिया। मैं अपनी यह छुट्टियाँ कभी नहीं भूलूँगा। ये मेरे कभी ना भूलने वाले पल हैं।

समय का दाम

कितना महँगा समय का दाम
इसमें होते सारे काम
बहुत बड़ा है इसका नाम
इसे गँवाते दुष्परिणाम
चाँद या सूरज दिन या रात
सब आते इसके ही साथ
स्कूल या ऑफिस खेल या नींद
सब आते इसके ही अधीन
समय पर आना समय पर खाना
समय नहीं है इसकी कमी है
समय समय सब करते रहते
पर ये सबको मिले समान
इसे बनाते हैं भगवान
समय कहे “मैं हूँ बलवान !”

गाँव का मेरा सफर

पिछले वर्ष मैं अपनी बुआ जी के घर रोहतक (हरियाणा) के एक छोटे से गाँव इस्माइल में गई। मैंने पहली बार गाय का दूध निकालते हुए अपनी दादी जी को देखा व गाय के थनों से सीधा दूध पिया। वह दूध बहुत मीठा व स्वादिष्ट था। मैं खेतों में गई जहाँ गेहूँ व सरसों की बुआई हो रही थी। मैंने अपने हाथों से गेहूँ की बुआई की व साथ वाले खेत से गाजर व मूली तोड़ी। खेतों की ठंडी हवा व हरियाली ने मेरा मन मोह लिया। मैंने वहाँ उपलों का घर (बिटोडा) भी देखा व गोबर को कैसे खाद के लिए जमा किया जाता है ये भी सीखा। मैंने वहाँ रोज़ चूल्हे की गरम-गरम रोटी खाई। मेरी बुआ जी मुझे रोटी पर ताजा मक्खन रखकर मिर्च की चटनी व छाछ के साथ खाना खिलाती थी। अब वह दिन आ गया जिस दिन मुझे वापस आना था पर गाँव में बिताए हुए यह दिन मुझे हमेशा याद रहेंगे।

स्वीकारना है जीवन का राज़

खास बताती हूँ बात एक आज
स्वीकारना ही है जीवन का राज़
व्यक्ति हो तुम चाहे जैसे भी
स्वीकार करो खुद को वैसे ही
अच्छे या बुरे हर समय को अपना
हर समय में खुद को पहचानना
ज़रूरी है अपनी हर कमी को सुधारना
और है ज़रूरी अपने गुणों को स्वीकारना
स्वीकारने से बनता है सुंदर जीवन
खुश रहता है हमेशा अपना मन ।

वर्तमान से अतीत की यात्रा

एक बार मैं और मेरे दोस्त पहाड़ पर घूमने जा रहे थे । घूमते- घूमते हमें वहाँ एक पुरानी तिजोरी मिली और उसे खोलने पर हमें उसमें एक पुराने समय की बोतल मिली । उस बोतल को खोलते ही उसमें से रंगीन धुँआ निकला और जैसे ही धुँआ छटा, हमने अपने आप को डायनासोर के समय में पाया । वहाँ हमने एक डायनासोर देखा जो आकर में बहुत बड़ा था और उसे देखते ही हमारे पसीने छूट गए । लेकिन यह क्या ? वह डायनासोर तो रोने लगा और हमारे पूछने पर उसने बताया कि वह एक परी थी और एक राक्षस ने उसे डायनासोर बना दिया था । उसने कहा की यदि हम उस पर पानी की पाँच बूंदें डालेंगे तो वह फिर से परी बन जाएगी। हमने ऐसा ही किया और सचमुच की सुंदर परी हमारी आँखों के सामने थी । परी ने खुश होकर हमारी एक इच्छा पूरी करने के लिए कहा । हमने उसके सामने घर जाने की इच्छा प्रकट की और परी ने हमें हमारे घर पहुँचा दिया । घर पहुँच कर हम सब बहुत खुश थे ।

बहाई मंदिर (लोट्स टेम्पल)

मैं आपको लोट्स मंदिर के बारे में कुछ विशेष बातें बताना चाहता हूँ। इसे बहाई उपासना मंदिर भी कहते हैं। यह मंदिर नई दिल्ली में स्थित है। इस मंदिर के शिल्प की प्रेरणा कमल के फूल से ली है। यह मंदिर पानी के नौ बड़े तालाबों से घिरा हुआ है। इस मंदिर में किसी भी धर्म की कोई मूर्ति नहीं है और नाहीं यहाँ किसी भी प्रकार का कोई धार्मिक कार्य किया जाता है, अपितु यहाँ तो अलग-अलग धर्मों के लेख पढ़े जाते हैं। इस मंदिर के प्रार्थना कक्ष में १३०० लोगों के बैठने की व्यवस्था है। लोग यहाँ आकर ध्यान करते हैं और मंदिर के पुस्तकालय में शांति से बैठकर धार्मिक पुस्तकें पढ़ते हैं।

मैंने सीखा

पिछले साल जब मैं आइ.एम.ओ की तैयारी कर रहा था तो कुछ चीज़ों को समझने में मुझे तकलीफ़ हो रही थी। मैंने अपनी माँ को यह बात बताई। मैंने माँ से कहा कि वे मेरी मदद करें। माँ ने मेरे लिए दो और किताबें मँगवाई। मैं रोज़ जल्दी उठकर उन्हें पढ़ने बैठ जाता था। जब मैंने परीक्षा दी और मेरा परिणाम आया, मैं खुशी से फूला न समाया। मैंने प्रथम स्थान प्राप्त किया था। मैंने यह समझा और सीखा कि जब हम मेहनत करना स्वीकार कर लेते हैं तो सफलता ज़रूर मिलती है।

मेरे जीवन की घटना (उकेतामो)

मैं अपने घर में सबसे छोटी हूँ। मुझे घर के सारे सदस्य बहुत प्यार करते हैं। माँ तो कहती है कि मैं उनकी परी हूँ। इतना प्यार करने वाला परिवार और बहुत सारे प्यारे दोस्त भी हैं, इसलिए कभी छोटे भाई-बहन की कमी महसूस नहीं हुई। फिर जब कोविड आया और हम सभी घरों में बंद हो गए। तब मैं बहुत अकेला महसूस करने लगी। एक दिन भगवान से प्रार्थना करते हुए मैंने कहा, “काश! मेरी भी एक बहन होती तो मैं उसके साथ खेलती। ईश्वर ने मेरी प्रार्थना को जल्द ही सुन लिया। मेरी माँ ने मुझे बताया कि मेरे घर एक नन्हा-सा मेहमान आनेवाला है, तो मेरी खुशी का ठिकाना नहीं रहा। मुझे यकीन था कि मेरी बहन ही होगी। लेकिन जब समय आया तो एक नन्हा-सा बाल गोपाल मेरे घर आया। मैं यह देखकर बहुत उदास हो गई और बहुत रोई क्योंकि मुझे बहन चाहिए थी। लेकिन जब मैंने उसे देखा तो पाया कि वह तो बिल्कुल मेरे जैसा दिखता है। तब मैं सब कुछ भूलकर उसे प्यार करने लगी और यह मेरी जिंदगी में ‘उकेतामो’ था। आज मेरा भाई दो महीने का हो गया है और मैं अपने भाई के साथ बहुत खुश हूँ और उससे बहुत प्यार करती हूँ।

OUR MUSINGS IN SPANISH

“El fracaso nunca va a superarme si mi determinación para tener éxito es mucho más fuerte” -Og Mandino

Estimados lectores,

“La vida es práctica”, todo lo que hacemos desde muy temprana edad es lo que nos construye para ser exitosos en el futuro, lo mismo aplica cuando empezamos a aprender un nuevo idioma se necesita constancia, dedicación, esfuerzo y por su puesto mucha práctica, por eso, es de gran satisfacción ver como los estudiantes se han embargado en el camino del aprendizaje de un nuevo idioma y han escrito en español estos artículos en los que nos motivan e invitan a tener una vida y una dieta más sana.

Mi deseo para ustedes es que, aunque el camino tenga muchas piedras y a veces no todo sale como nosotros queremos, la persistencia, el trabajo honesto y el esfuerzo siempre tendrá su recompensa, y recuerden siempre tú puedes cumplir todo lo que se propagan, si se puede.

Es un inmenso placer poder compartir con ustedes estos artículos escritos por nuestros brillantes estudiantes.

Dear readers,

‘Life is practice.’ Everything that we do since an early age is what is going to make us successful in future. Every day we are trying to practice something new, something old, maybe at the beginning we couldn’t do it, but we continuously keep trying, until we can do it. The same applies for learning a new language, we have to practice again and again. Dedication, discipline and effort is what helps us to accomplish our goals. It is never easy, but always worth it. Hence, it is very satisfactory and a proud moment to see how our dear students are writing in Spanish and encouraging us to have a healthy lifestyle.

My wish for you is that although the path has many stones and sometimes not everything turns out the way we want - persistence, honest work and effort will always pay and a remember that you can fulfill all your dreams. You can do it!

It is with immense pleasure that we share with you these articles written by our brilliant students.

Importancia del deporte y el ejercicio

El deporte mejora nuestra salud física y mental, además trae felicidad a tu mente y nos mantienen comprometidos con el cuidado de nuestro cuerpo, hacer ejercicio o deporte ayuda a que los niños puedan jugar y tener diversión, también ayuda a que se desarrolle disciplina y constancia.

Otras personas practican deporte de manera profesional como Messi o Ronaldo, por lo que influyen a otros niños a que quieran hacer algún deporte porque quieren ser como ellos. Hay muchos deportes como fútbol, cricket y bádmin-ton y nos enseñan a trabajar en equipo.

Hay deportes como el yoga que ayudan mucho a la relajación y meditación, el cual no solo trae beneficios a nuestro cuerpo, sino también hace que mantengamos una buena salud mental. Actualmente, las personas son adictas a la tecnología y teléfonos lo que provoca enfermedades como estrés, así que es importante que las personas intenten practicar deportes y hacer más actividades al aire libre, así que la próxima vez que te sientas abrumado o con pereza sal y practica algún deporte.

Raishaa Purswani

Mi tiempo libre

Me llamo Gyan. A mí me gusta jugar muchos deportes como cricket, baloncesto y natación, entre otros, En mi tiempo libre también me gusta practicar tenis, además me gusta ir de compras con mi familia especialmente los fines de semana, porque es cuando no tengo que ir a la escuela, me gusta mucho ir a centro comercial Ambience mall. Me encanta ver Netflix y regar las plantas.

Creo que jugar algún deporte como el cricket es muy importante porque nos mantiene saludables y nuestra mente está más fuerte, por eso yo hago deporte durante la semana y en mi escuela también practico deportes, para estar fuerte y sano y tener un crecimiento adecuado.

Mi tiempo libre

Hola,

En mi tiempo libre me gusta hacer muchas actividades como cantar, bailar, también hago algo de deporte como baloncesto o bádmin-ton.

Me gusta jugar deportes con mis amigos porque es divertido y pasamos mucho tiempo juntos y jugamos en equipo, los deportes son importantes porque nos mantienen saludables y nuestra mente esta fuerte.

Vivo en Gurugram y los fines de semana por lo general vamos a los centros comerciales, la ciudad es moderna, pero no hay muchos lugares para ir, así que solo vamos al cine y al centro comercial.

La importancia de hacer deportes

Hacer o practicar deportes regularmente puede ayudar a mantener fuertes habilidades para pensar, aprender y tener buena memoria cuando nos hagamos mayores.

Los deportes nos hacen estar saludables y fuertes, además hay mucha variedad de ejercicios para que todas las personas podamos practicar y hacer diferentes actividades que nos permitan estar activos y en un futuro poder tener una buena condición física y mental.

Por eso, es importante que todos los niños hagamos algún deporte como golf, boxeo, gimnasia, patinaje o natación, porque nos ayuda estar en movimiento y fortalecer también nuestra mente, además que nos mantiene ocupados y lejos de la tecnología que bien nos ayuda mucho hacer tareas y demás, pero también hoy en día pasamos mucho tiempo enfrente del televisor o video juegos.

Lavanya Malik
VI-G

La importancia de practicar deportes

Es importante practicar deportes porque nos enseñan muchas cosas, como disciplina y además nos ayuda hacer amigos y pasar tiempo con ellos, por lo que es importante porque aprendemos a trabajar en equipo.

Los deportes nos mantienen en forma y además al practicar algún deporte estamos ejercitando nuestro cuerpo y mente, así podemos tener un estilo de vida saludable y evitar que nos enfermemos más seguido o tengamos enfermedades como diabetes u obesidad, también es importante comer comida saludable y evitar comida chatarra.

Todas las personas deberían de hacer ejercicio y comer saludable para tener una vida más productiva, activa y tener un cuerpo sano.

Chers lecteurs et lectrices,

C'est avec une grande joie que nous vous présentons notre magazine scolaire. Cette année, nous avons exploré le thème captivant de la diversité, mettant en lumière les multiples talents et perspectives qui enrichissent notre communauté éducative.

J'exprime notre sincère gratitude envers tous les étudiants et les autres qui ont partagé leur créativité et leur passion pour donner vie à ce magazine. C'est avec grand plaisir que je vous présente la section française de la Synergie. En feuilletant ces pages, je vous invite à réfléchir sur la richesse de notre diversité, à découvrir des histoires inspirantes. L'année scolaire est devenue intéressante et passionnante avec des chansons, des poèmes, de l'art et des concours. Merci de soutenir le talent de nos étudiants. J'espère que vous apprécierez les articles. Bonne lecture, Merci !

Le Printemps Enchanté : Une Saison de Couleurs"

Le printemps est ma saison préférée. Je l'aime parce que pendant cette période, la nature se réveille après l'hiver. Les fleurs colorées commencent à pousser, les arbres retrouvent leurs feuilles vertes, et le soleil brille. Les oiseaux chantent et les enfants jouent dans le jardin. Il y a beaucoup de fleurs partout de différentes couleurs comme rouge, verte, rose et jaune.

Les journées sont plus chaudes et plus agréables. J'aime me promener dans les parcs. C'est une saison pleine de vie et de couleurs. J'aime la saison de printemps.

Lecture, le meilleur passe-temps

La lecture est mon passe-temps préféré. J'aime lire les différents types de livres. J'aime lire les livres qui contiennent également des images et des illustrations colorées. J'aime beaucoup lire des magazines car ils ont aussi des images colorées et un contenu intéressant. Les magazines sont basés sur différents thèmes et sujets comme la politique, la mode et la santé. Récemment, j'ai aimé un magazine basé sur les animaux. Il contenait beaucoup d'informations et d'images d'animaux comme le lapin et la girafe. Les images sont très mignonnes. La lecture est bonne pour l'imagination et ce loisir est spécial pour moi.

ENGLISH AND VISUAL ARTS WEEK

17TH – 21ST JULY 2023

An inaugural assembly on poetic devices was held on 17th July by Grades III and IV students, to declare the English and Visual Arts Week open. Grade III participated enthusiastically in Creating a Story book, which was a Group activity. The students created a story book on SDG – Life on Land as a group activity in class.

Verse It! An activity was conducted in Grade IV where the students were shown a few paintings of a few popular artists and they were asked to compose a poem/song based on any one of the pictures. In Grade V the students created a Magazine based on SDG 15 including a personal narrative. This was a group activity which helped to promote team spirit and unleash creativity among the students. A special assembly was conducted by grade VI on the 20th of July where a speak Up Speak Out competition (speech) was conducted. Through this competition students not only honed their public speaking skills but also learnt the importance of expressing themselves with confidence

The English week concluded with a movie outing. The students were taken to watch the movie-Elemental at Metropolitan Mall. The movie inspired them to follow their dreams and aspirations. They also learnt it is important to communicate freely with their parents and have a dialogue with them regarding their dreams and desires.

हिंदी दिवस प्रतिवेदन

सनसिटी विद्यालय में गुरुवार, ७ सितंबर २०२३ को हिंदी दिवस का रंगारंग आगाज़ हुआ। दो दिवस तक चलने वाले इस समारोह में आज के प्रथम दिन न केवल छात्रों को अपनी प्रतिभाओं को परिलक्षित करने का स्वर्णिम अवसर प्राप्त हुआ बल्कि छात्रों के भविष्य के लिए आवश्यक कौशलोंको भी आत्मसात करने का मौका मिला। हिंदी दिवस में नवाचार, सतत विकास लक्ष्य और डिजाइन थिंकिंग जैसे शिक्षा प्रणाली के कारकों का को बखूबी प्रदर्शित किया गया। इस वर्ष की विषयवस्तु 'उकेतामो' को भी पूरी तरह से शामिल किया गया। सनसिटी के छात्रों द्वारा लिखित काव्य संग्रह 'मनाकाश' पुस्तक का विमोचन किया गया। प्रार्थना सभा का समापन आदरणीय निदेशिका जी के प्रेरणादायक शब्दों द्वारा किया गया।

दिनांक ८.०९.२०२३, शुक्रवार को कक्षा प्रतियोगिताओं का आयोजन किया गया था।

ICT AND SCIENCE WEEK – QU@NTUMAN!A

21ST – 26TH AUGUST 2023

"Technology can become the 'wings' that will allow the educational world to fly farther and faster than ever before—if we will allow it." - Jenny Arledge

Keeping up with such positive and upbeat thoughts, The ICT and Science Week, Qu@ntuman!a 2023 commenced on 21st August 2023 with the Monday assembly presented by the students of grades IV and V. The students of Grade III participated in the 'DECODE THE CODE @PLANTOMANIA' Activity, in which they prepared a board game based on the different groups of plants such as trees, shrubs, climbers, creepers, herbs. They made rules for the game. They used rolling dice and followed the codes to finish their game. The key highlight of the assembly was the ICT and Science quiz by Grade IV, conducted on Kahoot. It was integrated with SDG-14: Life below water. The activity- 'EXCEL WITH PIXEL' was conducted for students of Grade V.

The young explorers of Grade VI blended science with ICT by making PowerPoint presentations on the following topics: i) Role of Artificial Intelligence in Waste Management ii) Research on Adaptation of any animal iii) Electricity and AI to inculcate awareness of saving the environment and understanding the application and the usefulness of Artificial Intelligence.

SOCIAL SCIENCE AND PERFORMING ARTS WEEK

16TH - 20TH OCTOBER 2023

The Social Science and Performing Arts Week took place from 16th to 20th October during which a dynamic fusion of both the subjects was showcased. A series of engaging assemblies and activities were meticulously planned to seamlessly blend the realms of social sciences and the performing arts.

On 16th October the students performed in the assembly prepared on the theme, 'Spotlight on Difference Makers'. This assembly was a unique amalgamation of social sciences and performing arts, aiming to celebrate and showcase eminent personalities who made significant changes in their respective fields. This integration was designed to promote a holistic understanding of how societal change and individual actions can impact the world.

The Mask Carnival activity for Grade III was a resounding success. It encouraged students to explore different cultures, art forms, and historical traditions by researching and creating masks used in various dance forms. The Awareness Squad activity conducted by Grade IV was a remarkable success in promoting environmental awareness and advocacy. It allowed students to explore their creativity, work collaboratively, and actively participate in spreading the crucial message of environmental protection.

The Folk Dance Festival invited each student from Grade V to embark on a journey of exploration and discovery. They were tasked with selecting a folk dance from different parts of the world. Students researched to understand the historical and cultural context of their chosen dance. The Jazz Style Icons activity inspired students of Grade VI to delve into the lives and contributions of great personalities in the fields of music and dance. Each student was tasked with researching about an iconic figure who had left an indelible mark on the world of performing arts.

MATH AND SPORTS WEEK

28TH NOVEMBER-2ND DECEMBER 2023

The Math and Sports week began with the assembly named as Mathletics and the story line was based on the old pendulum clock and the AI digital clock. Mr. Sudeep Singh, a renowned author and a Suncity parent was invited. He pursued his hobby of running and has now won many marathons. He discussed various calculative techniques to be a winner with the students present for the assembly.

Sport-o-metrics-The students of the Grade III presented their favourite sport and mathematical details in them. The students of Grade IV created various games related to math concepts, logical skills and analytical skills.

Just in 5 Steps-The students of Grade V were divided into 4 groups and they created story sums that were 5 steps. **Logic-o-sport-Hurdlerace**- The students of Grade VI were divided into teams and were supposed to create question cards. This was followed by most exciting part of creating hurdles and by hiding question cards in various allotted areas of the school.

GRADE III - PARENTS' WALK-IN

6TH OCTOBER 2023

'Parents' Walk-in' for Grade III, an event parents and students anxiously look forward to, culminated on Friday, 6th October 2023, leaving everyone enthralled and happy with the way students were blossoming!

The event began with a melodious recital of an apt welcome song- Swagatam, followed by the presentations by all subject groups in their classrooms. The theme for this parent walk-in was SDG 12- Responsible Consumption and Production which inculcated a feeling of being more conscious about our role as a responsible global citizen in terms of energy conservation, our global footprint, as also zero wastage.

The 21st century skills of communication, collaboration, creativity and critical thinking were effortlessly honed in the process of preparation, deliberation and delivery of the entire presentation.

GRADE IV – PARENTS’ WALK-IN

4TH OCTOBER 2023

The month of October witnessed the Parents’ Walk-In, where the parents of Grade IV were invited to experience the teaching learning methodology. SDG 12 - Responsible Consumption and Production was the theme of the month in which all the curricular subjects were integrated to bring about awareness and also sensitize the students towards a more responsible society. In this novel concept the roles are reversed and it teaches the students of the 21st century, the different skills such as time management, waste management as well as problem solving.

GRADE V - PARENTS' WALK-IN

16TH MAY 2023

Grade V Parents' Walk-In took place on Tuesday, 16th May 2023. Parents of grade V visited the classrooms of their wards to see this inter disciplinary, theme-based learning. The capstone idea of the Parents' Walk-in was SDG-3: Good Health and Well-being.

The session started with a Zumba dance where parents were engaged in a warm up exercise. The project was aimed to create awareness amongst the parents and students about the importance of maintaining good health and well-being and to demonstrate their learning through a range of creative activities.

The integration of SDG-3 into different subjects provided an opportunity for cross-disciplinary learning, enhancing students' understanding and reinforcing the importance of good health and well-being.

GRADE VI - PARENTS' WALK-IN

9TH FEBRUARY 2024

As the year commenced, the students of grade 6 dived right into a learning spree with great spirits. To showcase everything they had learned, explored and accomplished this January, class 6 put together an exciting presentation during the Parent Walk-In with immense enthusiasm, creativity and dedication on the 9th of February. The students were divided according to the subjects and showcased their learning in the form of skits, Role-play, talk show and even a magic show related to magnetism. With the aim to convey a symbolic message and throw light on the 11th SDG goal, i.e. Sustainable Cities and Communities, students brainstormed about steps, however small, that they need to take to work towards creating a sustainable green home, school, neighbourhood and society. Students discussed affordable, scalable solutions to enable countries to leapfrog to cleaner environment. The performances were greatly applauded by the parents and felt that all the activities were quite engaging. They were happy to see their children perform confidently.

MI-ME 'MULTIPLE INTELLIGENCES AND ME -APOTHEOSIS'

24TH NOVEMBER 2023

The annual event of Suncity School, 'Multiple Intelligences and me', focuses on the Multiple Intelligences that each child possesses, was held on Friday, 24th November, 2023. It was the vision of the school Director, Mrs. Rupa Chakravarty which helped conceptualize this novel event.

Students of Classes IV to X of a total of 12 prestigious schools of the NCR like Lotus Valley, DPS, Amity, DAV, G.D Goenka etc. participated in the 5 events- Making Connections, Kitsch Art, VUCA, Design Thinking, and Callisthenics.

The competition was judged by eminent panelists including Ms. Bhavna Vij Arora, who has worked with esteemed media organizations like The Times of India, Indian Express, India Toda. She judged the Making Connections event along with Mr. Amit Shankar, the author of Flight of the Hilsa, Chapter 11, motivational speaker and founder of TGILF—India's only regional literary festival.

The Design Thinking event, conducted virtually, was judged by - Dr Biswajoy Bagchi, who has worked as a postdoctoral Research Fellow at Wellcome-EPSCRC Centre for Interventional and Surgical Sciences, University College London (UCL). The second judge for this event was Ms. Anjali Anand Seth who has been involved in the field of education for close to twenty years in various capacities.

CHILDREN'S DAY CELEBRATION

16TH NOVEMBER 2023

Children's day was celebrated in Suncity School on 16th of November. This day was marked by a grand celebration filled with exciting performances and activities that left both teachers and students delighted. The Celebration was a resounding success, leaving both students and teachers with cherished memories. The performances by the teachers, including dances, songs, and a fashion show, added a dynamic and entertaining element to the event.

TALK ON SDG-6 CLEAN WATER AND SANITATION

BY MR. AMIT GUPTA

Mr. Amit Gupta is a member of SDG education of India, sustainability crusader, happiness coach and a strategist who spoke about SDG-6 'Clean water and sanitation', and generated awareness among the students by sharing that SDG 6 focuses on ensuring a clean and stable water supply and effective water sanitation for all people by the year 2030. The goal is a reaction to the fact that many people throughout the world lack these basic services. About 40 percent of the world's population is affected by a lack of water.

GRADE-III TO VI

POSTER MAKING COMPETITION ON EARTH DAY

On Friday, 21st April 2023, the students of Grades III to VI celebrated Earth Day through a poster making activity on the theme of 'Invest in our planet'. Students made beautiful posters depicting various ways to save the flora and fauna of our planet. The activity was enjoyed by all the students. This event of the week rekindled emotive concerns amongst the youngsters to save, love, and respect Mother Nature with all their heart and soul.

LABOUR DAY CARD MAKING ACTIVITY

29TH APRIL 2023

“All labour that uplifts humanity has dignity and importance, and hence should be undertaken with painstaking excellence.” We celebrate the painstaking effort of the labour force that works tirelessly, on the International Worker’s Day, also called as Labour Day on the 1st of May every year. Labour Day is a reminder for us that they are the real architects of our society, and they deserve due respect. We have always believed that it is the small acts of kindness that count and we attempt to inculcate that same virtue in our children. Students of Grade III to VI celebrated Labour Day by doing a fun filled craft activity. They were involved in making ‘Thank You ‘cards.

TALK BY A PSYCHOLOGIST ON MENTAL HEALTH

11TH MAY 2023

The session began with a brief introduction by the counsellor, Ms. Tanushree Sangma who provided an overview of SDG 3 to share the importance of emotional awareness and well-being. The counsellor, then engaged the students in a discussion about their experiences with emotions, including how they express and manage them.

During the session, an interactive activity was conducted where the students were given a pizza pie diagram and asked to fill it with different colors that represent their emotions. This activity provided an engaging and creative way for the students to explore their emotions and express themselves in a safe and supportive environment.

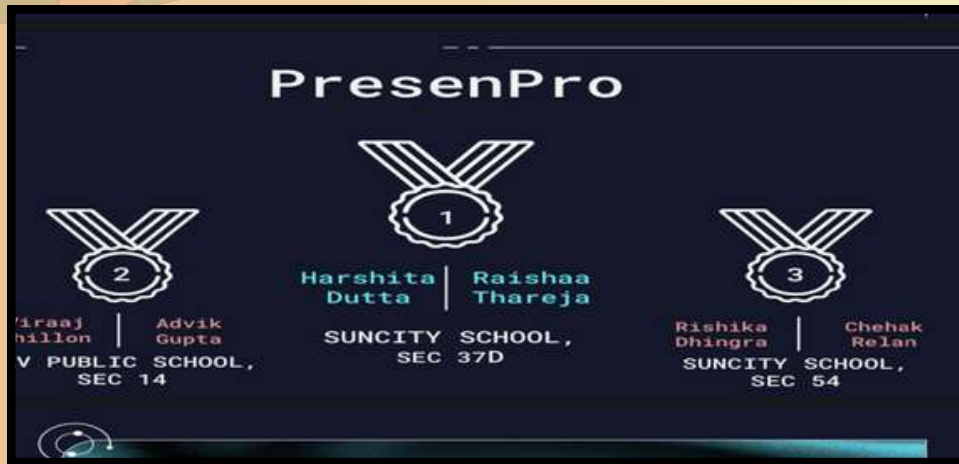

INTER SCHOOL COMPETITION IN DAV PUBLIC SCHOOL & DPS INTERNATIONAL SCHOOL

8TH MAY 2023

Anjini Saxena and Tanish Satija from Grade IV were awarded the Second Runner-up trophy in an Inter School Digital Storytelling competition, 'Dream Green' organized by DPS International school, held on 8th May 2023.

Chehak Relan and Rishika Dhingra from Grade V secured the third position in an online GPSC Interschool event held in DAV Public school. They had to make a presentation on Sway based on SDG 12 Responsible consumption and production

ENGLISH HANDWRITING COMPETITION

11TH AUGUST 2023

English Handwriting Competition was held on August 11, 2023. The students participated enthusiastically and wrote beautifully taking care of the cursive pattern of handwriting. They were given the time limit which eventually developed their fine motor skills and improved their spellings too.

INDEPENDENCE DAY CELEBRATION

15TH AUGUST 2023

We celebrated Independence Day on the 15th of August. Grade IV performed the Drill meticulously and was a feast to the eyes with all the colourful costumes. Students were enthusiastic and enjoyed the day thoroughly.

VANITY FAIR

20TH JANUARY 2024

‘A fair is a tapestry of moments, woven with threads of laughter, dreams and the quiet magic of shared experiences’.

Vanity Fair was conducted in Suncity School on 20th January 2023. This day was marked by a grand celebration filled with exciting stalls put up for games and activities that left parents, guests, students and other visitors delighted. The Fair was a resounding success, leaving cherished memories. Tambola, fun games, added a dynamic and entertaining element to the event.

SPECTRA

24TH AUGUST 2023

The desire to innovate and create something new springs from a dream which gets its wings from the courage to venture beyond the known path. One such endeavour of Suncity School Gurgaon is the Science Fest, 'SPECTRA', held on 24th August, 2023 celebrating the creativity and spirit of the budding scientists. This initiative to encourage curiosity and originality in thinking has now become an annual event celebrating the wondrous world of science. The fest was inaugurated by Mr. Sachin Panwar and Mr. Gaurav Nagar from Yoga Solutions. The frame work for this fest was developed through the research done by students making STEM learning enjoyable along with honing transversal skills of the young learners, the students of Grade VI worked on different hypothesis beyond the textbooks, syllabus and classroom scenario. The main objective of the Fest was to hone curiosity and an inquiring mind-set by taking science out of the classroom scenario and to sensitize the students towards the need of sustainable environmental solutions. Students displayed their creative ideas and solution to everyday challenges through their innovative working/non-working models, projects and presentations supported by reports, display and research findings. Parents were invited and they were impressed with the work put in by the students and the confidence with which they presented their research.

BEHIND THE SCENES:

Some of the experiments that students researched on were seed packaging material, natural mosquito repellent, Effect of music from plants, bio plastic, waste material sorter, organic soap bar, xylem filter etc.

EDUCATIONAL OUTING ON 2ND FEBRUARY 2024

On February 2, 2024, students embarked on an educational trip to explore the rich history of Delhi at Qutub Minar and Lodhi Gardens. Accompanied by subject experts, the students delved into the architectural marvels, gaining profound insights into the cultural and historical significance of these iconic landmarks. The subject experts provided engaging narratives, enhancing the students' understanding of the monuments' intricate details and their place in India's past.

Moreover, the educational experience extended beyond listening, as students actively participated in a hands-on activity – drawing the monuments. Armed with sketchpads and pencils, they captured the essence of Qutub Minar's towering beauty and Lodhi Gardens' serene landscapes.

Report of Adventure Camp on 13th & 14th March 2024

"Adventure is worthwhile." - Aesop

The school year culminated in a spectacular event that not only marked the end of an academic session but also celebrated the spirit of acceptance and resilience. The adventure camp, held on 13th and 14th March 2024 at Suncity School, was a testament to the student's enthusiasm and zest for life.

The adventure camp, a tradition at Suncity School, kicked off with team-building activities aimed at fostering collaboration and communication skills among students. Set against the backdrop of lush greenery, the camp provided a perfect blend of thrill and learning. Students engaged in a variety of activities including Climbing and high ropes courses. The adrenaline rush from activities like Bungee jumping, Commando Net, Caterpillar, Bouncy and Burma Bridge was palpable, with students of all grades enthusiastically participating.

ELEMENTARY YEARS PROGRAMME
JUNIORS

WELCOMING THE CHILDREN TO SCHOOL

Thursday, 6th April 2023, the first day of the new academic session was nothing short of magical as the school welcomed the little ones with warmth and excitement. The atmosphere buzzed with anticipation and joy, with teachers and staff making concerted efforts to create a welcoming environment. From colourful decorations to friendly greetings, every detail was carefully arranged to ensure the children felt comfortable and eager to embark on a new learning journey.

MAGIC SHOW

Magic, a captivating performing art, enchants audiences through seemingly impossible feats achieved with tricks, illusions, sleight of hand, and well-honed exercises. The students of the Junior Elementary Years Programme thoroughly enjoyed the magic show on Thursday, 6th April 2023. It was the first day of the new academic session. The show was organized in the school auditorium.

The children felt exhilarated to see some staged magic tricks that were seemingly impossible for them to believe. The magician used natural and known objects to make the tricks real and interesting and he involved a few students while performing them, which proved to be a hands-on experience for them. The tricks performed by the magician left the students and the teachers awestruck.

EARTH DAY

The students of the Junior Elementary Years Programme celebrated Earth Day on 22nd April 2023 with great enthusiasm and fervour. The objective was to raise awareness about the importance of preserving our planet and to encourage students to take action to protect the environment. The little ones were sensitized to the fact that it is our responsibility to take care of the planet, Earth. So, we all must work to make it a better place.

The little ones made posters and wall hangings to raise awareness towards saving the planet.

LABOUR DAY

The children of Pre-nursery, Nursery and Kindergarten celebrated 'Labour Day' with great zeal on Friday, 28th April 2023. They appreciated the efforts of helping staff's arduous labour and were informed about the significance of Labour Day.

They celebrated the day by doing a fun-filled craft activity in which they made 'Thank You' cards and flowers. The little ones expressed gratitude to the helpers and support staff by acknowledging their help and giving 'Thank You' cards and flowers.

SESSION ON SAFE/UNSAFE TOUCH

A session on 'Safe/Unsafe Touch' was conducted by the school counsellor, Ms. Harsimran Kaur, for the students of Nursery and Kindergarten, on Tuesday, 18th April 2023. The objective of conducting the session was to spread awareness and educate children about good and bad touch.

SESSION BY A NUTRITIONIST

It is well known that eating a balanced diet rich in fruits, vegetables, and whole grains provides the proper nutrition to support a healthy lifestyle. Healthy eating habits and patterns are formed in the first few years of life, so it is important to encourage children to make appropriate food choices. Keeping this in mind, an informative session by a nutritionist, Ms. Manpreet Kalra, was conducted for the students of Pre-nursery, Nursery and Kindergarten on Tuesday, 9th May 2023.

The little ones were encouraged to opt for home-cooked, healthy food and limit the intake of sugary food items and avoid junk food. They were briefed on how harmful junk food is to their bodies.

SESSION BY A DENTIST

A session on dental care and oral hygiene was conducted by Dr. Ankur Jain for the students of the Junior Elementary Years Programme, on Tuesday, 11th July 2023, in the school auditorium. The main objective of the session was to raise awareness of the value of having good dental health and maintaining oral hygiene.

The session emphasized the importance of eating healthy food and the harmful effects of junk food, sweets and aerated drinks on teeth. The importance of brushing teeth twice a day and flossing at regular intervals was also discussed with the children.

DOG SHOW

Pets are a great blessing in anyone's life. They are the ones who love us unconditionally. Pets always offer us everything they have without asking for anything in return.

Suncity School, sector 54, organized a 'Dog Show' for the students of the Junior Elementary Years Programme on Tuesday, 2nd May 2023. The show featured a variety of dog breeds showcasing their unique qualities and friendly interactions with both their handlers and the attending students. This initiative aimed not only to foster love for animals but also to instill a sense of responsibility and empathy towards pets.

NATURALISTIC EVENT

The students of Kindergarten participated in the Naturalistic Event, 'Nature's Splendour' which was held on Friday, 25th August 2023. They created beautiful pieces of art depicting different seasons.

LOGICAL EVENT

The little ones of Nursery participated in the Logical Event, 'Shape-a-Narrative' which was held on Friday, 25th August 2023. The children got an outlined picture of the characters from their favourite story on an A3-sized mount board. They pasted the cut-outs of different shapes of coloured paper to create the composition.

VISUAL-SPATIAL EVENT

The students of Pre-nursery participated in the Visual-Spatial Event, 'The Sakura' that was held on Friday, 27th August 2023. They created beautiful pieces of art depicting their love for nature.

VERBAL LINGUISTIC EVENT

The Verbal Linguistic Event was organized for the students of the Junior Elementary Years Programme with the aim of creating a platform for the little ones, fostering the development of effective communication skills and building confidence in their ability to perform in front of peers and teachers. The little ones from Pre-nursery came dressed as creepy crawlies and reptiles, creatures disliked by many but helpful to the environment. They recited rhymes and shared information about the characters they were dressed up as.

The students of Nursery dressed as their favourite Disney characters from a story, enacting and sharing a few lines about the life lessons they learned from the characters. Last but not least, the students of Kindergarten came dressed in attire made out of everyday household waste items. They walked on the ramp to showcase their attire and spoke about the importance of saving the planet Earth.

BODILY KINESTHETIC EVENT

Emphasizing the virtues of good sportsmanship, the Junior Elementary Years Programme organized a Bodily Kinesthetic Event on September 1st for the students of Kindergarten and on September 4th for the little ones of Pre-nursery and Nursery. This engaging initiative aimed to instill values such as teamwork, character development, respect, discipline, resilience and perseverance in the young participants. The little ones demonstrated the genuine essence of sportsmanship, displaying their agility and strength with enthusiasm during various races.

CLASS ASSEMBLIES

Assemblies serve as a platform for unveiling the unique talents of every child and instilling essential values. The purpose of preparing students for class assemblies is to offer stage exposure, foster confidence, provide a platform for refining diverse talents, develop oratorical skills, and help them overcome inhibitions. During the academic session of 2023-2024, students from the Junior Elementary Years Programme presented their class assemblies, delving into significant themes including environmental care, the preservation of natural resources, and embracing openness and gratitude in their outlook.

MANNER DEVELOPMENT OUTING

Field trips have the power to spark wonder and excitement for learning, providing students with an opportunity to bridge classroom lessons with real-life experiences. Keeping this thought in mind, a Manner Development Outing to 'Bikanerwala' was organized for the students of Nursery and Kindergarten on Tuesday, 16th May 2023 and for the little ones of Pre-nursery on Monday, 28th August 2023. The aim of the outing was to teach children about appropriate behaviour and table manners when dining in a restaurant setting.

VISIT TO AEROPLANET

The little ones from Nursery and Kindergarten enjoyed a delightful and enlightening day during their visit to Aeroplanet in Dwarka, New Delhi, organized on Monday, the 17th of July 2023. The young adventurers had a hands-on experience with emergency landing procedures, relishing the thrill of sliding down from an aircraft. The excitement soared to new heights as the children engaged in a variety of activities, including a thrilling rope trolley ride, conquering a commando net challenge, and being captivated by a mesmerizing magic show. This excursion wasn't merely a day of play; it was a day of learning, laughter, and the creation of lasting memories for our little ones.

'MI-me' - AN INTER-SCHOOL EVENT

Suncity School, sector-54, played host to the 'MI-me' Inter-School Event on Friday, the 29th of September 2023. A total of twenty schools, including the host school, participated in this event, providing children with a valuable platform to discover and nurture their hidden talents.

The event began with a graceful Lighting of the Lamp ceremony, graced by the presence of the Chief Guest, Ms. Leena Thukral, esteemed guests, judges and Ms. Sangeeta Bagchi, the Headmistress of the Elementary Years Programme. Following this ceremonial beginning, the students of Suncity School captivated the audience with an enchanting dance performance.

The children participated in a variety of competitions with tremendous enthusiasm, earning accolades that brought pride to their respective schools.

INTER-SCHOOL COMPETITION

Karan Ambawat, a Kindergarten student, took part in the Inter-School Competition, 'Aahvaan - Sports Fiesta', hosted by Maurya School. He secured the first position, bringing laurels to the school.

DIWALI

The students of the Junior Elementary Years Programme embraced the spirit of Diwali with immense enthusiasm on the virtual platform, given that classes were conducted online due to unexpected holidays caused by poor air quality. During the celebration, discussions were held on the festival's significance and the importance of adopting eco-friendly practices. The little ones made the most of the day, engaging in memorable activities such as crafting, playing games, and preparing delectable Diwali desserts.

CHILDREN'S DAY

Children's Day celebration at school was a vibrant and joyous occasion, marked by special festivities. The teachers presented a delightful assembly dedicated to the students. The morning began with a burst of energy as the teachers, adorned with smiles, gathered to celebrate the spirit of childhood. They performed a humorous skit, eliciting cheers from the students who enthusiastically supported their teachers on the stage. This was followed by a lively dance performance. The auditorium was filled with joy and amusement, making it an enjoyable and spirited experience for everyone.

SUSTAINABLE DEVELOPMENT GOALS

Sustainable Development Goals strive to reshape our world, serving as a compelling call to address issues such as poverty, inequality, environmental protection, and the universal enjoyment of health, justice, and prosperity. Learning about these goals is important as it helps to gain insights into global issues. Keeping this in mind and to raise awareness among children about the Sustainable Development Goals, the theme of the month was seamlessly integrated with the SDGs.

Through digital media, PowerPoint presentations, activities and discussions, children were enlightened about these goals.

Their enthusiastic participation in all the activities demonstrated a growing awareness and engagement with the broader issues encapsulated by the Sustainable Development Goals.

INDEPENDENCE DAY

In honour of the 76th anniversary of India's independence from British rule and as a tribute to the valiant freedom fighters who made immense sacrifices for the nation, the students of the Junior Elementary Years Programme joyously celebrated Independence Day on the 15th of August 2023.

BIRTHDAY CELEBRATIONS

At the Junior Elementary Years Programme, children come together at the end of each month to celebrate the birthdays of their peers born during that time. The purpose of these celebrations extend beyond joyous festivities; they serve as opportunities to impart lessons in social behaviour, decorum, good manners, and the use of polite language in a social setting.

The birthday celebration every month aims to foster an understanding of these social values among the children. Through engaging in various games, the celebration encourages the little ones to embrace a healthy spirit of competitiveness while also learning how to conduct themselves gracefully during such events.

INTER-SCHOOL COMPETITION

A few students from Nursery and Kindergarten participated in the Inter-School Competition, 'One Earth, One Family, One Future', hosted by Manav Rachna School. They participated in a group performance in the category, 'Dance Representing the G20 Countries'. The little ones brought laurels to the school by winning the third prize. All the students performed with great zeal and enthusiasm. It was indeed a great learning experience for them.

INTER-SCHOOL COMPETITION HELD AT HELD AT GEMS INTERNATIONAL SCHOOL

The students of the Elementary Years Programme participated in the Inter-School event, 'Chrysalis - Evolving Identities, A Festival of Early Childhood Care and Education' held at Gems International School on September 16, 2023. The event brought together young talents from various schools to showcase their abilities and creativity in different categories. Shanaya Bhutani, Saanvi Khullar, Poorvi Chanana, and Karan Ambawat of Kindergarten, participated in the physical development category known as 'Fit Kids.' They not only impressed everyone with their physical fitness but also highlighted the importance of a healthy lifestyle. Their exemplary performances earned laurels for the school as they secured the award in their category.

Karan Ambawat, a Kindergarten student, took part in the 'Aahvaan - Sports Fiesta'. He achieved the first position, bringing laurels to the school.

INTER-SCHOOL COMPETITION HOSTED BY BLUE BELLS PREPARATORY SCHOOL

The students of the Junior Elementary Years Programme enthusiastically took part in 'Bits and Bytes' Inter-School IT Fest, themed 'Unleash the Magic of Innovation,' hosted by Blue Bells Preparatory School on Saturday, 14th of October 2023.

In the 'Space Titan' category, Viyana Saripalli from Nursery showcased an imaginative four-fingered debris cleaning vehicle equipped with claws. She eloquently described how her innovative creation could meticulously pluck garbage piece by piece out of the orbit.

Veditha Nevatia from Nursery, displayed her artistic flair in the 'Drawing Clipart Event.' Utilizing techniques like tearing and pasting, vegetable printing and earbud painting, she skillfully crafted a captivating space vehicle clipart.

Kindergarten student Rivaan Singh showcased his agility in the 'Steeplechase' category, participating in a hurdle race on a designated track. His energetic performance secured him the 3rd position in this category.

In the 'Gadget Power' category, Jiah Aggarwal, a Kindergarten participant, exhibited her creativity by introducing a self-designed gadget focused on preserving nature, accompanied by a captivating jingle. The model, crafted from recycled materials, emphasized its utility in household chores, earning Jiah the 2nd position in this category with her confident performance.

CHRISTMAS

The Christmas celebration was a joyous and festive occasion. The courtyard was adorned with colourful decorations and the children participated in various activities like carol singing, games and craft. Santa Claus made a special appearance, spreading cheer and distributing candies, creating lasting memories for the little ones. The event fostered a sense of warmth, togetherness and holiday spirit among the students.

VISIT TO PLACES OF WORSHIP

Participating in worship is a profound expression of love and reverence for the Divine. Visiting places of worship is meaningful for all, providing an opportunity to strengthen the connection with God. With this purpose in mind and to seek blessings from the Almighty, the students of the Junior Elementary Years Programme visited a church, temple, and gurdwara on Wednesday, 20th December 2023. The outing offered the little ones a delightful and spiritually enriching experience.

VANITY FAIR

The Vanity Fair, hosted by the school on Saturday, 20th January 2024, witnessed enthusiastic participation from the students. They enjoyed a variety of attractions including the Children's Art Studio, Tambola, thrilling game stalls organized by students of all grades, video games, F1 racing, joy rides, book stalls, handicrafts, and many more. It was a day full of fun and frolic.

VISIT TO THE NATIONAL ZOOLOGICAL PARK

Animals are truly a precious blessing, representing boundless love and beauty. A trip to the zoo serves as a vital link, fostering connections between humans and these marvellous beings. More than just entertainment, it offers valuable educational opportunities, enlightening visitors about the unique habitats and dietary needs of a variety of animals and birds. With this educational objective in focus, students from the Junior Elementary Years Programme eagerly ventured to the National Zoological Park on Wednesday, 7th February 2024.

SPORTS DAY

The Annual Sports Day held on Thursday, 15th February 2024, was a vibrant event for the little ones of the Junior Elementary Years Programme. Children participated in races, parade, gym activities and drills, showcasing their enthusiasm and teamwork. The day was filled with laughter, cheers, and friendly competition, fostering a sense of camaraderie among the children. It not only promoted physical activity but also instilled important values of sportsmanship and fair play among the participants.

ORIENTATION PROGRAMME

Suncity School, sector-54, hosted an Orientation Programme for new parents on Saturday, 24th February 2024. The primary goal of the programme was to provide parents with insight into their child's school experience, fostering a positive and collaborative relationship between parents and teachers. The programme offered an overview of the school's curriculum, rules, teaching methodologies and extracurricular activities, allowing parents to gain a comprehensive understanding of their child's educational journey. It served as a valuable platform for both the school and parents to exchange ideas and explore effective practices for preparing children for life.

VISIT TO SURAJGARH FARMS

At Suncity, we firmly believe in the value of field trips as authentic, hands-on learning opportunities that allow students to apply their classroom knowledge in real-world settings. With this thought in mind, the students of the Junior Elementary Years Programme embarked on a visit to Surajgarh Farms on Thursday, 7th March 2024. During the visit, the students partook in thrilling adventures such as the commando crawl, Burma Bridge crossing, navigating the commando net and walking on the balancing beam. Excitement filled the air as they indulged in rides like the bullock cart, tractor and camel cart. The sight of rabbits and geese at the farm thrilled them, adding to the excitement of the day. The puppet show and magic performances were met with great enthusiasm, leaving both students and teachers amazed by the magician's astounding tricks. Overall, the visit to Surajgarh Farms provided a rich and memorable learning experience.

GRADES I AND II**

ARTICLES BY THE STUDENTS OF GRADES I AND II

MAY YOUR 'YIN' BE YANGY AND 'YANG' BE BE YINY!

Yin is the symbol of darkness and night, while Yang is the symbol of day. Yin and Yang are like day and night, black and white, butter and bread and so many opposite things. They are opposites that complete each other. Yin represents all quiet things, while Yang represents loud and energetic things. They show us that life is about balance. Just like a seesaw, if one side gets too heavy, the other side flies up into space, and we definitely don't want that to happen! We want our seesaw to stay firmly planted on the ground. We can learn from animals like cats and dogs. They might have different personalities, but they still play together. We can be like them too, embracing our differences and finding common ground like sharing toys. We can also look at the sun and the moon. Even though they have different responsibilities, they still take turns shining their brightest! Just like them, we can take turns being in the spotlight. Sometimes we lead the way, and other times we cheer for someone else's success.

Lastly, we can learn from pizza! Imagine a boring pizza with no toppings. We need the delicious toppings, as it is these that make it full of flavour and interesting! Let's embrace the Yin and Yang within us by celebrating our differences and accepting our similarities. Life is like a dance party. The best moves happen when we dance with both Yin and Yang and don't step on each other's toes.

MATHS IS FUN!

In a magical land of numbers and fun,
Math is a game that has just begun.
Counting numbers that are so simple and clear,
Let's discover the wonders, my dear.
I love adding and putting numbers together.
Shapes are exciting, and there is so much to explore.
It's a journey of learning, step by step.
Math is amazing, and there is so much fun.

MY JOURNEY TO THE HOLY CITY!

This year, during my summer vacations, I visited the holy city of Amritsar, located in the state of Punjab. I went with my parents. I remember this journey as it was my first train ride with my family, and I missed the train!

But not to be sad, we reached the sacred city by cab. As we drove, we crossed the scenic view of small towns, chimneys and trees, just like I draw in my art class. Finally, we reached Haridwar, a sacred city with ghats of Ganges. The beauty of the golden water flowing mesmerised me. I prayed to Goddess Ganga, took a dip in the chilling water, and last but not the least, did the sunset prayer at the banks of the sacred river with all earthen lamps lightened up around and many priests were chanting prayers. It was a sight to behold and a beautiful scene. After finishing, I finally got back to my town by a fun train ride again. I really enjoyed my first train ride!

MY VISIT TO SINGAPORE

My visit to Singapore, the Lion City,
was as amazing as it could be.

When I went to climb the supertree
at the gardens by the bay, I felt like a bird, so free.

When I went to Floral Fantasy,
I couldn't believe that it was a reality.

The sea aquarium was very beautiful to see,
within the glass walls was a graceful sight to be.

When I went to the flower dome,
it was amazing to roam.

When I went to the zoo, lions roared, monkeys swung free,
pandas were eating the bamboo leaves from the trees.

When I went to Universal Studio, I could hear the echoes of laughter.
I loved Jurassic Park, 'Puss in the Boots', and the 'Transformers' thereafter.

MY PET 'BUDDY'

My pet, Buddy, was a Labrador. He was adorable. He was my first friend and first pet. He was very patient with me. When I was small and I would cry, Buddy used to go and bark at my Mumma to tell her that I was crying. I used to sit on him and lie down on him. Buddy used to sit with me on the stairs. Whenever I used to sit with him, he would often lick my hands and feet because he loved me so much and so did I.

**We both used to shake hands when we met and then he would try to hug me.
Buddy is now in space and I really miss him.**

THE MAN WHO OVERCOOKED THE PIZZA

Once upon a time, there lived a man named Akasa. He was known for being the Master of Disaster in the kitchen. One day, there was a get-together at his home, and everyone was super hungry. Akasa wasn't a very skilled cook, but he decided to treat everyone to a homemade pizza. Hearing this idea, everyone said, "We will order the pizza from Dominos, but Akasa insisted on homemade pizza and started collecting the ingredients.

As he placed the pizza in the oven, he couldn't stop himself from peeping inside to see the progress. For him, time was passing at a snail's pace. So, he thought to increase the temperature of the oven so that the pizza would cook quickly. The decision proved to be a big disaster.

When Akasa took the pizza out of the oven, it was all burnt, and it had ruined the dinner plans. Disheartened, he picked up the phone and ordered Domino's pizza for home delivery.

That night, he enjoyed a perfectly cooked pizza and promised himself to leave pizza-making.

MY FAMILY TRIP TO THAILAND

My most memorable trip was to Thailand in January 2023 with my parents. In Thailand, we went to Under Water World, which included the Dolphin Show. I first saw dolphins and seals dancing, playing, and painting. We also went on a boat ride where there were large fish, including sharks, in a large water tank beneath our vessel. Scuba divers were feeding the fish, penguins, and sea horses. I was so happy to see them all. Then we went to Nong Nooch Garden, where I took many pictures with my favourite dinosaurs, like T-rex, Spinosaurus, etc., and also enjoyed a football show with elephants. My favourite part of the day included making sandcastles on the beach with my parents. I also loved the Chayo Phraya River cruise, where I enjoyed watching a beautiful river bank and dance show on the cruise. We were lucky to welcome the New Year in Bangkok alongside the river bank, dancing and watching music, concerts, and fireworks.

“Sometimes letting things go is an act of far greater power than defending or hanging on.” “Life moves on and so should we.”

—Spencer Johnson.

SPECIAL EVENTS

SPECIAL SESSION ON 'GOOD TOUCH/BAD TOUCH'

To sensitise children about various issues and about good and bad touch, an educative session on "Good Touch and Bad Touch" was organized in Suncity School, on Tuesday, 11th of April 2023. It was conducted by the school counsellor, Dr. Ruchika Bhardwaj, to educate the students of Grades I and II about the same. It was an interactive session where the children actively participated in the discussion and pondered over the topic as per their understanding. The session gave the children an insight into their body parts, differences between good and bad touch, and how to deal with such a threat.

CELEBRATING EARTH DAY

The children of Grades I and II celebrated 'Earth Day' on 22nd April, 2022. A Quality Circle Time was held to demonstrate support for environmental protection. Discussion related to 'Sustainable Development Goal 13 – Climate Change' was held. The students donned the hat of an Earth saviour and shared ways to avert harm to the planet and make this world a happier and healthier place for everyone. The children created beautiful posters using different mediums of art. The aim of the competition was to pay tribute to 'Mother Earth' and sensitize students about climate change and global warming.

SDG - 2 'ZERO HUNGER ACTIVITY'

The students of Grades I and II of Suncity School took small steps in the direction of SDG -2 Zero Hunger and conducted a fireless cooking activity on Thursday, 21st September and learned some valuable life skills. The students gathered in the school refectory to prepare a healthy and nutritious meal and served it to the helping staff in the school. They learnt the advantages of eating healthy, staying away from junk food and how little efforts can make a difference in the lives of underprivileged people.

A VISIT BY AN NGO

On Monday, 16th October 2023, Suncity School invited a few underprivileged children from Maharishi Dayanand Model Primary School located in South City-1. The students of Grades I and II welcomed the children from the NGO warmly with a mesmerizing dance and singing performances. As a small step towards SDG 2- Zero Hunger and SDG 1- No Poverty, the proceeds from the sale of cupcakes made by the students for their parents during the Parent walk-in of Grade-II, were donated to the NGO. The students of Grade I donated healthy food items (fruits, dry fruits, dates, etc.), stationery items and daily need items to the underprivileged children. A few books from the school library were also donated. This activity helped the children to appreciate little things in life and to become responsible citizens of the society.

PARENTS' WALK-IN

GRADE - I

On Wednesday, 31st August 2022, Suncity School held a memorable Grade I Parents' Walk-in event. The students welcomed the parents by presenting a beautiful musical performance where they played violins and many other musical instruments.

The corridors were decorated with the art work of Grade I students along with thought provoking quotes on the significance of nature. Students also created a vertical garden, wonderful Ragamala paintings and tie and dye patterned fabrics using natural colours.

The parents were in awe of the work done by the little ones. They walked through the exhibitions which were set up outside each classroom. The display reflected gratitude for everything nature has provided mankind with. Products made of herbs, bamboo and coconut shells were among the various plant-based items displayed in the exhibition.

The students of Grade I presented informative skits related to Science, Mathematics, English and Hindi. They integrated their performances with the theme- 'Plants', and showcased what they had learnt in all the subjects in the last few weeks. Their creativity, confidence and imagination impressed everybody.

PARENTS' WALK-IN

GRADE -II

Suncity School held a memorable Grade II Parents' Walk-in event on Wednesday, 11th October 2023 on the theme 'Food' and its connection to 'Sustainable Development Goals'.

During their performance and subject-related activities, the students emphasized the crucial role of food in our lives and introduced the audience to the SDG's, particularly SDG 2 (Zero Hunger), SDG 3 (Good Health and Well-being) and SDG 12 (Responsible Consumption and Production).

The students read a narrative about food called "Cloudy with a Chance of Meatballs". They discussed strategies for reducing food waste through the story and advocated SDG-2, "Zero Hunger." As part of competency-based learning, parents shared their knowledge of food in a Rapid-Fire Round Quiz at the end.

The children also took part in healthy food-related activities and discussed about healthy snack ideas. Additionally, they emphasised the importance of maintaining a healthy lifestyle and eating healthily. The children made nutritious muffins, which they then sold to parents in exchange for a donation to a worthy cause.

Students showcased their subject based learning through skits, role play and various presentations. They integrated their performances with the theme- 'Food', and showcased what they had learnt in all the subjects in the last few weeks. Their creativity, confidence and imagination impressed everybody.

READING GRAND PRIX (GRADES I AND II)

The "Reading Grand Prix" programme was organised for the students of both, Grades I and II to foster a robust reading habit among them. The programme was designed to enrich the imaginative capacities of the students and augmenting their knowledge horizons.

During the course of the programme, a dedicated thirty minutes were allocated daily for reading practice within the classroom. This facilitated a structured reading routine for all participating students. This allowed students to explore a diverse range of stories, broadening their literary experiences.

The "Reading Grand Prix" program proved to be a resounding success in achieving its objectives. Students embraced the opportunity to immerse themselves in the world of books, often exhibiting enthusiasm beyond our expectations. Their participation in the daily reading sessions and the subsequent completion of the book/story report forms was commendable.

BOOK/STORY REPORT

The title of the book/story is: Ben and his lazy friends

This book/story is about A hand

My favorite part of this book/story is when his lazy friends' hands come smacking- their lips are quivering, 'Let us taste the hand!' The hand says 'None of you deserves a bite!'

Student's Name: Adrika Parent's Signature: Sumita

BOOK/STORY REPORT

The title of the book/story is: A proud Dahlia

This book/story is about A proud Dahlia

My favorite part of this book/story is when a ant sat up Dahlia the she learned her lesson she understood being proud is not good

Student's Name: Adika Parent's Signature: Sumita

BOOK/STORY REPORT

The title of the book/story is: The Colourful Seashell

This book/story is about Frieda was walking along the beach when she saw a beautiful seashell

My favorite part of this book/story is Frieda was happy when she had made her granny happy

Student's Name: Leham Parent's Signature: Sumit Singh

BOOK/STORY REPORT

The title of the book/story is: Elephant and the tailor

This book/story is about friendship between elephant and tailor

My favorite part of this book/story is when elephant brings lots flowers for tailor

Student's Name: Vedanshi Parent's Signature:

GLIMPSES OF THE ASSEMBLIES

ICONIC IDIOMS

The students of Grade II-A conducted their Special Class Assembly on 11st May 2023. The theme of the assembly was 'Iconic Idioms' and the students began the assembly with an idiom and a greeting that was as fresh as a daisy. Through role plays, many idioms, including "as busy as a bee," "pulling someone's leg," "on a cloud nine," "listening ear," and "in the pink of health," were introduced, explained, and connected to daily discussions. Through the assembly, the students were encouraged to use idioms and they realized how crucial it is to use these figures of speech to make their language impressive.

THE FESTIVAL OF DUSSEHRA

The students of Grade-IA presented their special class assembly on Thursday, 19th of October 2023. The theme of the assembly was "The Festival of Dussehra" and the children performed a play based on "Ramleela" while also learning the significance of the festival. The skit started with a Shloka, in which Narad Muni and a few other celestial beings come to Earth to teach people about moral principles that can be learned by studying the lives of the religious figures in the epic "Ramayana" and applying them to oneself. The entire assembly was recounted in songs, hymns, shlokas, and rhymes. The students gave a mesmerizing performance and the show was enjoyed by everyone in the audience.

INDEPENDENCE DAY

To commemorate the spirit of nationalism and freedom, the students of Grade I and II presented a spectacular assembly on "Independence Day" on 14th August 2023 with great fervour. The assembly commenced with chanting the hymn: "Raghupati Raghav Raja Ram, Patitpawan Sita Ram", followed by the thought of the day, the news, and the weather report. Through a dramatic skit, they presented their thoughts on Independence Day, including why we celebrate it. The students also conveyed the ideas of the great Indian freedom fighters and raised slogans that these freedom fighters had used. The assembly concluded with the hoisting of the Indian flag and singing the National Anthem.

SELF DISCIPLINE

The students of grade II-F presented an assembly on a very important virtue of life 'Self Discipline'. The assembly commenced with a prayer followed by the weekly news. Children shared the thought of the day through an engaging game and various real-life examples. Children also sang a beautiful song related to the topic. Children enjoyed singing carols as the festival of Christmas is around the corner. The assembly was taken forward with a short question and answer round which reflected the learning of children through the assembly. It culminated with the national anthem.

SUBJECT WEEKS

SOCIAL SCIENCE AND PERFORMING ARTS WEEK

Social science and performing arts week was celebrated at Suncity School from Monday, 16th October to Friday, 20th October 2023. Various activities were conducted integrating both the subjects and hence guiding children to know more about the world around them. The activities conducted were as follows:-

SOCIAL SCIENCE AND PERFORMING ARTS WEEK ASSEMBLY THEME: ETHNOCHOREOLOGY

Children of Grade I D presented a special assembly to showcase dance forms of different states of India. The children also shared information about the uniqueness of different states of India in terms of food, language, dresses etc.

GRADE - I

ACTIVITY: MUSIC MANTRA

A special session was planned by the performing arts department to educate the children about different types of dances through a short question and answer round. Thereafter, the children enjoyed singing a few songs like '500 miles', 'Doe a Deer', etc.

ACTIVITY: ME -THE EXPLORER (RESEARCH WORK)

Children researched about any one dance form around the world/ famous musician/ any musical instrument and performed in their class. They used different props like posters, models and different types of costumes for the presentation.

ACTIVITY- TEAMWORK MAKES THE DREAM WORK (DANCE SUDOKU)

Sudoku 3X3 templates were given to the children where they pasted the pictures of various dance forms to complete the Sudoku.

GRADE II

BINGO GAME

A Bingo game was played in the class wherein, the teacher shared the name of the capital and the children kept striking the correct state/country that capital belonged to on the given bingo ticket.

PREPARING A PRESENTATION ON A POPULAR FESTIVAL

Children were provided pictures of various festivals. They identified the festival showcased in the picture and together collected information to make a presentation in front of the class.

PASSPORT MAKING

Children made their own passports by filling their details in the printed template provided to them. They decorated it and drew flags of various countries they have travelled to or the countries they wish to travel to. The importance of passport was discussed.

EDUCATIONAL OUTING

Learners of grades I and II will visit Urusvati Museum on Saturday, 28th October to learn about our culture through beautiful paintings, sculpture, musical instruments and handicrafts.

SCIENCE AND ICT WEEK

The 'SCIENCE AND ICT WEEK' was organized for Grades I & II from 21st to 26th August 2023. Following are the glimpses of the activities conducted:

SPECIAL ASSEMBLY

The students of class II-B presented a special ICT and Science Week Assembly. The theme of the assembly was 'The Digital Footprints'. The theme of the assembly transported the children into the classroom scenario where the teacher introduced the students to the Detective Byte, a cyber sleuth who educates the children about cyber safety while learning in the digital world. The assembly demonstrated an excellent fusion of science and ICT.

CODER- DECODER

The students enjoyed exploring some QR codes pasted around the school premises which were created during ICT class. They also enjoyed scanning these codes and decoding relevant information related to some science facts. The Snapchat activity aimed to engage Grades I and II students in a creative and interactive way centered around emotions and emoticons

BUDDING INVENTORS

Our little inventors made their own devices using recycled materials. In this science activity, Grade II children made their own Spectroscopes- an instrument used to split light into different wavelengths. The children enjoyed seeing the formation of rainbow.

I-SCIENTIST

Our little scientists demonstrated some innovative science experiments. They used interesting materials as props to explain topics like acidic base, density of water, the relationship between oil and water, sink and float, etc

EDUCATIONAL OUTING TO NATIONAL SCIENCE MUSEUM

The children of Grades I & II visited the National Science Museum to explore the connection between science and technology. The primary objective of the visit was to engage, educate and entertain visitors through interactive educational activities.

ENGLISH AND VISUAL ARTS WEEK

The 'English & Sports Week' was organized for Grades I and II from 17th to 22nd November 2023. In order to enhance student's interest in learning English, an array of interesting activities were held during the week to enhance their vocabulary, language skills and soft skills in a fun and engaging way.

ASSEMBLY - 'THE GLOBAL HEROES'

In line with the theme of the year 'Uketamo', the children personified some famous personalities (e.g. J.K. Rowling, Walt Disney, Bill Gates, etc.) who accepted challenges, moved ahead with grit and perseverance, and converted the challenges into success stories which keep inspiring generations.

YIN AND YANG

The students of Grades I and II participated in an intra-class Yin and Yang competition in which they presented inspiring examples of the Yin and Yang philosophy. The children talked about day and night, the sun and moon, water and fire, feminine and masculine gender, etc. The little ones understood the concept, imparted valuable knowledge about it and related it to the theme of the year 'Uketamo' beautifully.

ECCENTRIC ARTS

A short poem related to nature was recited to the students to help spark their imagination and create a visual representation of the poem. This encouraged students to appreciate the beauty of the natural world and they articulated their own unique perspectives through their drawings and illustrations.

JUST-A-MINUTE

The 'Just -A-Minute' activity was designed to encourage children to think out of the box and present their ideas on various topics related to 'Uketamo - Acceptance to the Core' and the SDG's learnt. The activity involved an extempore speech where the children were given a topic and asked to express their thoughts on it. The activity aimed to promote creativity and open-mindedness in the children.

BUDDING AUTHORS

The children embarked on an exciting journey of story creation. They worked in groups and composed a short story of about seven - eight sentences based on the picture related to SDG-14 'Life Below Water' provided to them. They came up with wonderful stories.

SPIN-A-YARN

The children got on an exciting journey of weaving a story. They were given a picture related to Uketamo. They experienced the joy of self-expression while intelligently planning a story that has a clearly defined beginning, middle and end with a well-defined plot.

EDUCATIONAL OUTING

The movie outing was another fun activity that the children enjoyed, it provided an opportunity for them to relax and bond with their peers.

‘READ TO SUCCEED’ PROGRAMME - GRADE II

In an endeavour to ignite a passion for reading and cultivate a deep appreciation for books, the young scholars of Grade II of Suncity School embarked on a week-long reading program, ‘Read to Succeed’ held from 20th November 2023 to 24th November 2023. Throughout the week, students engaged in a series of carefully planned activities designed to enhance their reading skills and inspire their love for literature. Here's an overview of the activities that captivated our young readers:

- 1. Spin-A-Yarn:** In the opening session, students mesmerized their audience by narrating stories from their favourite books. The students displayed their creativity by weaving the narrative starters into their stories, showcasing their imaginative prowess.
- 2. Spelling Bee:** The ‘Spelling Bee’ session aimed to enrich students' spelling, vocabulary, and literary skills through fun and engaging activities like word scrabble and homophones.
- 3. Story Narration by Parents:** Parents took the stage, sharing stories with remarkable storytelling abilities, voice modulation, and intonation. They also shared their passion for reading and how they improved their knowledge by reading books of many genres.
- 4. Independent Reading:** This session began with students reading independently to a captivated audience, followed by enthralling role-playing performances inspired by the characters in their stories. The students' creativity and enthusiasm took centre stage, leaving the audience fascinated.
- 5. Visit to the Library:** The program concluded with a visit to the library, offering each student an opportunity to immerse themselves in the world of books. This overall experience enriched their vocabulary, enhanced their speaking skills, and nurtured effective communication. This program brought together students, dedicated parent volunteers, and English teachers in a celebration of the written word.

A painting of a city skyline at night. The sky is a deep blue with a large, bright full moon in the upper left quadrant, surrounded by concentric blue circles. The sky is filled with stars and a few wispy clouds. The city buildings are dark silhouettes with yellow light emanating from their windows. The sky transitions from blue at the top to a warm orange and yellow glow near the horizon, suggesting a sunset or sunrise. The overall style is expressive and painterly.

**ART IS AN UNIVERSAL LANGUAGE,
UNDERSTOOD BY ALL**

VISUAL ARTS

2023-2024

PARTH VIC

VISUAL ART

“They always say time changes things, but you actually have to change them yourself.” These wise words by the pioneer of Pop Art, Andy Warhol, aptly summarise the ethos of the Visual arts programme in Suncity School. Change is the only constant and art as a medium to communicate change in society, environment was our goal. It was nowhere more evident than in our larger community initiatives this year. We collaborated with organisations like Delhi Street Art Foundation, the European Delegation in India and the Japan Art Mile Foundation to expose students to tackling real life situations. Our students of IA spread the important messages on SDG 5, 13 on a community wall in sector 43, Gurgaon, with the support of Delhi Street Art.

Continuing the larger community engagement, Gitali Wasir and Saanvi Manglik were chosen by the EU delegation in India to beautify the walls of Diwan Chand Arya School, Delhi, with the message of EU and India, United in Diversity. Our school also had the unique distinction of being one of only seven schools in Delhi NCR to participate in an Art from Waste Installation competition to inculcate SDG 12, Responsible

Consumption and Production among all stakeholders. The deputy Head of Mission, Embassy of Lithuania, was the Guest of Honour at the unveiling of our school's Art from Waste Installation, 'Fishing for trouble', a visual statement to remind us to be a part of the war on waste. The initiative culminated in the unveiling of a public art installation on January 2024, by H.E. Mr. Hervé Delphin, Ambassador, EU Delegation to India, on biodiversity and sustainability at Dilli Haat INA.

Continuing our engagement with Japanese schools with the Japan Art Mile Mural Exchange, we collaborated with Ashiya International Secondary School, to share knowledge and solutions to problems related to SDG 2, 3, 5,12. Important issues like food wastage, gender discrimination in food consumption, commonalities in food of the two countries, found expression in a beautiful mural painting. The mural fostered intercultural communication, understanding and friendship. It inspired our students to embrace diversity, celebrate cultural differences and opened their eyes to the larger world view on the SDGs. As more students engage in this project each year, they develop critical, creative thinking and problem solving skills, while translating solutions into meaningful visual expressions. All these beyond the classroom initiatives opened a wider, larger canvas of expression for our students, helping them develop this non verbal language of communication.

**Leonardo da Vinci said, “Poor is the pupil who does not surpass his master.”
Our endeavour will always be to make our students shine bright on the horizon with richer experiences in Visual Arts.**

**Kalyani Voleti

LAWN TENNIS TOURNAMENT

held on 13th August 2023

Our champion, Ayaan Ghosh, from grade V-F, emerged victorious in the open Lawn Tennis tournament at Excellence Lawn Tennis Academy on August 13, 2023.

BLOCK LEVELS SGFI CHESS, SWIMMING, BOXING, SKATING, TABLE TENNIS, BADMINTON AND SOCCER

Suncity School takes immense pride in announcing the remarkable achievements of our students in various sports at the block level in the SGFI tournaments Soccer, Chess, Cricket, Roller skating, Boxing Swimming and Badminton.

In Skating, Aishani Sengupta and Vidita Rathore of grade 6-H participated in the SGFI Block Skating competition held at YLSC Baliawas from 21st & 22nd August 2023. They made us proud by being selected for the District level competition.

In Badminton, our Shutlers participated in the SGFI Block level Badminton competition held at Sporbit Sports Academy from 25th to 27th August 2023.

56th HARYANA STATE MINI SUB JUNIOR BADMINTON CHAMPIONSHIP **held from 17th to 21st August 2023**

Nandini Acharya from Grade VI-D and Kaavya Pulugurty from Grade V-G have triumphed in the 4th round of the 56th Haryana State Mini Sub-Junior Badminton Championship, held at Navyug Shiksha Niketan Rohtak from August 17 to 21, 2023. Notably, Nandini advanced impressively to the quarter-finals, where she fiercely competed against a top-seeded player.

DISTRICT BADMINTON CHAMPIONSHIP **held on 29th August 2023**

District Badminton Championship 2023 took place at the Flow Academy, Sohna Road, Gurgaon, on the 29th of August 2023. Our players displayed exceptional skills, dedication, and sportsmanship, making us proud of their remarkable achievements.

Winner: Nandini Acharya – VI-D

Her outstanding performance secured her position as a winner in the U-14 Girls category.

STATE LEVEL ROLL BALL SKATING **COMPETITION**

held on 10th September 2023

Congratulations to Deeva, Bhavya, and Ishaan for their outstanding performance at the State level Roll ball skating competition in Sonipat! The Gurugram Girls team won the final match against Sonipat with a score of 3-2. Deeva's remarkable achievement of scoring 15 goals and being the best player of the match is commendable. Ishaan's role as the best defender is crucial for the team's success. Even more exciting, all three have been selected for the Nationals, which is a great honor.

INTER SCHOOL SKATING TOURNAMENT **held on 17th September 2023**

Trisha Kyal, Grade V-B student, participated at the Inter school Skating Tournament hosted by Vivekananda School in Gurugram on September 17th, 2023. Trisha's unwavering dedication to the sport and her exceptional talent resulted in her securing a well-deserved bronze medal in her respective category.

SKILL CRAFT OPEN OVER THE BOARD
CLASSICAL CHESS TOURNAMENT
held on 23rd & 24th September 2023

EMPOWERING WITH THE SKILLS FOR NEXT GEN

**EDUCATIONAL STAKEHOLDERS ROUNDTABLE
PRIORITISING SDGs, PEACE AND INTEGRITY IN THE ROADMAP FOR EDUCATION
26th APRIL 2023**

Soma Dam attended a conference organised by 'Educational Stakeholders Roundtable Prioritising SDGs, Peace and Integrity in the Roadmap for Education: Impact Stories from Classroom to Community on Thursday, 30th of March 2023.

The conference saw participation from a cross section of stakeholders like policy makers, practitioners and school leaders. The UNODC office was represented by Mr. Bo Mathiasen, Deputy Director, Division of Operations, UNODC and Mr. Marco Teixeira, Representative, UNODC Regional Office for South Asia. The panel discussion was moderated by Moderator: Mr. Samarth Pathak, Communications Officer and Regional Focal Point (Youth and Education), UNODC Regional

**HKUST X POLYU COUNSELORS FLY-IN 2023
26th APRIL 2023**

Ms. Shivani Mehta- PGT Political Science attended the HKUST x PolyU Counselors Fly-In 2023.

The 7-day program scheduled from 26th March to 1st April 2023 was an effort to allow counselors to immerse in the vibrant learning environment at both HKUST and PolyU. Various activities were planned to interact with the students and faculty members of both the universities. The fly-in program gave a better insight into the universities that will help us better inform and advise students concerning admissions to the two top-ranked universities in Hong Kong. It was an enriching experience.

LEADERSHIP SUMMIT - MALDIVES
8th MAY TO 11th MAY 2023

The invite from Hologo and MyPeegu to be a member of the Leadership Summit to be held in Maldives initiated the trip to Maldives . It promised to be an exposure to various aspects of learning in the country called Maldives.

The second day included a visit to the Finnish International School - Kangaroo Kids and Imaduddin school- a government school. The Minister was kind enough to arrange for the visit to the government school as it was not in the original agenda. A lot of learning was gleaned from both the schools. The Finnish International School talked about and demonstrated how Integrated education is imparted. The Director - Willie and Principal- Traaheen gave us an insight into the hands on approach to learning and teaching. The Director also made a presentation on the learning procedure of the school

THE DIRECTOR WAS INVITED TO WESTERN UNIVERSITY,
LONDON , ONTARIO, CANADA
15th TO 18th JULY 2023

The Director was invited to Western University, London , Ontario, Canada from 15th to 18th July 2023. This was to orient her regarding the colleges of the University and their teaching- learning process.

They began with a fun day on the first day wherein e visited vineyards, the Niagara falls and Lake Ontario.

CAMBRIDGE HEADS MEET SEPTEMBER 4th, 2023

The Ardee School hosted the prestigious Cambridge Heads Meet. Distinguished Heads and esteemed delegates offering the Cambridge University – IGCSE or A levels were present for this Meet.

The Director, Suncity school, Ms.Rupa Chakravarty, had the privilege of being one of the three speakers at the Cambridge Meet.

CAMBRIDGE HEADS MEET		
Date: Monday, 4th September 2023 - Venue: Ardee School, New Friends Colony, New Delhi - Time: 10:00 am – 01:00 pm		
Time	Activities	Venue
09:30-10:00 am	Registrations & Networking	Foundation Room
10:00 am-10:30am	Welcome by Ms. Chanda Raisinghani (President & Trustee, The Ardee Schools)	Discovery Court
	Students Performance	Discovery Court
10:30am-10:40am	Welcome by Dr. Cdr. Kartikay Saini (Chairman, Scottish High International School) and Ms. Manika Sharma (Director, The Shri Ram Schools)	Multipurpose Hall
10:40 am-11:05 am	Keynote address 1 – Ms. Vanita Uppal, OBE (Director of The British School) "Leaders of learning - building professional learning communities in our schools"	Multipurpose Hall
11:05 am- 11:30am	Tea-Break- Networking Opportunity	Foundation Business Centre
11:30 am-11:55 am	Keynote address 2 – Ms. Anita Mishra (Ex-Head, DPS International and Ex-chair Cambridge Heads) "On a different note: insights & Observations of a CIE"	Multipurpose Hall
11:55 am-12:15 pm	Sharing best practices – Ms. Rupa Chakravarty (Director, Suncity World School) "Teach me the way I learn"	Multipurpose Hall

HT EDUCATION SUMMIT 2023 28th AUGUST 2023

The Director, Suncity school, Ms.Rupa Chakravarty had the privilege of being one of the speakers . The other panellists were Dr. Rajesh Hasija, Director Indraprastha school, Delhi; Ms. Aditi Misra, Principal-Director of DPS, sector 45 Gurgaon; Dr. Nita Bali, Director Seth Anand Ram Jaipuria schools. The topic for the panel discussion was ‘How teaching-learning changed after Covid-19.’

Hindustan Times Education Summit 2023

REFORMED EDUCATION FOR AN EMPOWERED NATION

Hindustan Times Education Summit, 2023, brings together policymakers, educators and visionaries for a series of engaging conversations on policies and reforms required for an India-centric education system.

Speakers:

- Ms. CHANDA RAISINGHANI**, President & Trustee, The Ardee Schools
- Dr. RAJESH HASIJA**, Director, Indraprastha Schools
- Ms. ADITI MISRA**, Principal-Director, DPS, Sector 45 Gurgaon
- Dr. NITA BALI**, Director, Seth Anand Ram Jaipuria Schools
- Ms. RUBHA CHAKRAVARTY**, Director, Suncity World School
- Ms. SURBASHI SARIN**, Hon. Minister of State for Education, Government of India
- Ms. VANITA UPPAL, OBE**, Director of The British School
- Ms. ANITA MISHRA**, Ex-Head, DPS International and Ex-chair Cambridge Heads
- Ms. RUPA CHAKRAVARTY**, Director, Suncity World School

Watch this space to stay updated.

HT FIRST WAVE. LAST WORD.

HT EDUCATION SUMMIT 2023

28th AUGUST 2023

INTEGRATION OF TECH IN EDUCATION |
How teaching-learning changed after Covid-19
Aman Singh
aman.singh@hindustantimes.com

NEW DELHI: The paradigm of teaching-learning changed after the Covid-19 pandemic and has now become a collaborative process, director of Seth Anandaram Jaipuria Schools, Dr Nita Bhat, said during a discussion on "Revitalising Teacher Education for the Future: Challenges and Opportunities" at the HT Education Summit 2023 on Monday.

"With the pandemic, the entire paradigm of teaching-learning has changed completely. Definitely, all of us have realised overnight that things changed, people adapted... We all know that technology is here, and technology is here to stay... Integration of technology into teaching-learning is absolutely non-negotiable," Bhat said.

Talking about how it is important for teachers to become co-learners in the tech-integrated education, director principal of DPS Sector 45 Gurgaon Aditi Mitta said, "When we talk about technology specifically, let us accept that there are children who know tech more properly than we do. So, if we become co-learners with them... have shared space of learning in the classroom... that will be a big shift."

Education director of Suncity Schools, Rupa Chatterjee highlighted the problems faced by schools in the "new normal" after the pandemic: "At the moment, there are three things bothering us: the devolution of school management - in other words, interagency actions from the government; 1. the curriculum that is expected to be delivered in real time and third - the society and social media which is a huge pressure."

"If you want to mobilise and strategise teacher's energy... you have to empower... and motivate teachers... so that they can take the classroom in control... Managing director of Indraprastha Group of Schools, Rajesh Hansija said. The session was moderated by chairperson, education and scholarships, I.I.F. Foundation, Anveta Mulla Wastal.

HT Education Summit 2023 Highlights Importance of Technology and Teacher Empowerment in Education

HT Education Summit 2023 was held on August 28th at the Sheraton Hotel, New Delhi. The summit was moderated by Anveta Mulla Wastal, Chairperson of Education and Scholarships, I.I.F. Foundation.

The summit was held in a hybrid mode, with a live stream on YouTube. The summit was moderated by Anveta Mulla Wastal, Chairperson of Education and Scholarships, I.I.F. Foundation.

The summit was held in a hybrid mode, with a live stream on YouTube. The summit was moderated by Anveta Mulla Wastal, Chairperson of Education and Scholarships, I.I.F. Foundation.

ANKUR PLAY SCHOOL BSF CAMPUS - BORDER SECURITY FORCE IN BADSHAHPUR 18th SEPTEMBER 2023

EDUCATION WORLD AWARDS 13th OCTOBER 2023

Suncity School was felicitated with an award in the Education World India School Rankings 2023-24 under Co-ed Day School:
Gurugram: 3rd position
Delhi-NCR: 9th position
India: 15th position

CSE –ISC ANNUAL CONFERENCE GENERAL MEETING
ORCHHA PALACE ,29th AND 30th SEPTEMBER 2023

PALLIKKUTTAM GLOBAL CONNECT
THURSDAY, 16th NOVEMBER 2023

Was one of the virtual speakers at the Pallikkuttam Global Connect held on Thursday, 16th November 2023. The topic for discussion was ‘Designing futures with Design thinking.’ It was attended by 118 attendees.

GLOBAL EDCONNECT 2023
2nd DECEMBER 2023

‘Was one of the panellists at the Global EdConnect 2023 by HIGH SCHOOL MOMS held on Saturday, 2nd December 2023. The topic of discussion was ‘Innovative assessment approaches: Enabling meaningful learning outcomes.’

ENHANCING EMPLOYABILITY - UDAIPUR

9th DECEMBER 2023

Was one of the panellists at the Leadership Conclave held on Saturday, 9th December 2023 held at Rockwoods School, Udaipur. The topic for discussion was 'Enhancing Employability: Aligning Curriculum with Industry Needs.' The moderator for the event was Mr. Prikshit Dhanda.

EDUCATION WORLD, LEARNING EXPOSITION 2023 AT IIT-DELHI

16th DECEMBER 2023

I was invited by education world to be a panelist for their Education World, learning exposition 2023 at IIT-Delhi on Saturday, 16th December 2023 held from 11:00 hours onwards. The day began with the key note address by the Founder of Ashoka University, Prof Pramath Raj Sinha. He highlighted the need to integrate technology into the curriculum and use technology to bridge the gap between teaching and learning by analyzing data available through technology. In our panel discussion the topic was- AI and emerging technologies in education: Action plan for the new academic year

AWARDS FOR EXCELLENCE IN TEACHING 2023
17th DECEMBER 2023

The Indian schools, Oman congregation organized the 'Awards for Excellence in teaching 2023' for the CBSE schools in Oman on Sunday, 17th December 2023. The candidates were to be evaluated on three parameters besides a recording of their lesson which was sent to us in advance, I was one of the JUDGES for this virtual interview of the shortlisted candidates.

LEADERSHIP CONCLAVE - EDUCATION ANEW
MAYO COLLEGE, AJMER
27th JANUARY 2024

I was invited to be a member of the esteemed School Leaders panel for the first edition of the Leadership Conclave - Education Anew. It was a forum of speakers who were academic influencers hailing from K-12 backgrounds to higher education modules and related sectors of the Education Industry. It was held at the prestigious Mayo college boys school, Ajmer. The event was designed around the theme 'Enhancing Employability : Aligning Curriculum with Industry Needs'

PAN INDIA AND SOUTH ASIA IB HEADS CONFERENCE **8th FEBRUARY – 10th FEBRUARY 2024**

The Pan India and South Asia IB Heads conference was held from 8th to 10th February 2024 in Kolkata. It was the Annual General meeting of all IB Heads, held at the Taj, Newtown. The pre-conference on 8th February included visits to three of the sponsoring schools- The Heritage school, Calcutta International and RP Goenka International school. The conference was a great learning experience. I thank the Chairman immensely for this opportunity to learn and network through this forum.

EDUCATION ANEW – SUNCITY SCHOOL LEADERSHIP CONCLAVE **2nd MARCH 2024**

SUNCITY SCHOOL **MINDLER**

PANEL DISCUSSION:
**Enhancing Employability:
Aligning Curriculum with
Industry Needs**

2nd Mar 2024 | 12:40 PM - 1:40 PM (IST)

MODERATOR:
Mr. Prikshit Dhanda
Chief Strategy Officer,
Mindler

THE PANELISTS:

- Dr. Suman Singh**
President of Boarding
Schools Association of India,
Advisor, Mindler
- Mr. Asay Singh**
Principal,
The Creative School
- Mr. Bhavin Shah**
Director & CEO,
Education World
- Mrs. Ruqa Chakravarty**
Director Suncity Schools,
Kolkata

Suncity School Leadership Conclave in collaboration with Mindler, centred around the theme "Education Anew: "Revolutionising the Career Guidance Landscape for Future Leaders".

EDUCATION ANEW – SUNCITY SCHOOL LEADERSHIP CONCLAVE
2nd MARCH 2024

SUNCITY SCHOOL **M MINDLER**

PANEL DISCUSSION:
**Enhancing Employability:
Aligning Curriculum with
Industry Needs**

2nd Mar 2024 | 12:40 PM-1:40 PM (IST)

MODERATOR
Mr. Prikshit Dhanda
Chief Strategy Officer,
Mindler

THE PANELISTS

Dr. Sumner Singh
President of Boarding
Schools Association of India,
Ahmedabad, India

Mr. Ajay Singh
Principal,
The Newland School

Mr. Bhavin Shah
Director & CEO,
Education World

Mrs. Dupa Chakravarty
Director Suncity Schools,
Gurgaon

Suncity School Leadership Conclave in collaboration with Mindler, centred around the theme "Education Anew: "Revolutionising the Career Guidance Landscape for Future Leaders".

Harnessing Satellite Images and Machine Learning to Detect Wastewater Treatment Plants Globally

Aryan Jafar¹, Gary Collins², Lisha Brish³, Elizabeth Kelly⁴, Gavin McCrossin⁵, Aaron Doull⁶, and Gabriela Vidotto⁷
¹WattTime, ²Surrey School of Arts, ³Climate TRACE, ⁴The Johns Hopkins University Applied Physics Laboratory

1. Introduction

Identification of a range of greenhouse gas (GHG) emissions, especially methane (CH₄), and carbon dioxide (CO₂) emissions is essential for the development of climate change mitigation strategies. Satellite-based remote sensing offers a unique opportunity to monitor GHG emissions globally. However, the detection of small-scale emissions, such as those from wastewater treatment plants (WWTPs), remains a challenge. This research aims to develop a machine learning-based approach to detect WWTPs globally using satellite imagery.

2. How Climate TRACE model identifies Waste Water Treatment Plants

2A. Overall Approach

- Identify satellite imagery of WWTPs from publicly available sources.
- Train a machine learning model to detect WWTPs in satellite imagery.
- Apply the trained model to global satellite imagery to detect WWTPs.
- Validate the detected WWTPs using ground truth data.

2B. Datasets employed

- Wastewater treatment plant (WWTP) locations: A global dataset of WWTP locations, including names, coordinates, and capacities, sourced from the Environmental Protection Agency's (EPA) National Wastewater Treatment Database.
- Satellite imagery: A collection of satellite imagery from various providers, including Landsat, Sentinel-2, and Planet, covering the global area.
- Ground truth data: A set of ground truth data, including satellite imagery and location coordinates, for a subset of WWTPs.

2C. WWTP identification model development

The model was developed using a deep learning architecture, specifically a convolutional neural network (CNN). The model was trained on a dataset of satellite imagery and location coordinates of WWTPs. The model's performance was evaluated using a set of ground truth data.

2D. Sample outputs for the 7 steps

3. Scanning Algorithm - Approach

- The model was trained on a set of satellite images. The model's performance was evaluated using a set of ground truth data.
- The model was used to detect WWTPs in global satellite imagery.
- The detected WWTPs were validated using ground truth data.
- The detected WWTPs were used to estimate GHG emissions.
- The estimated GHG emissions were used to calculate the carbon footprint of WWTPs.
- The carbon footprint of WWTPs was used to estimate the carbon footprint of the global WWTP sector.
- The carbon footprint of the global WWTP sector was used to estimate the carbon footprint of the global economy.

4. Results (Scan the QR code)

The model detected 100 WWTPs globally, with a total capacity of approximately 1.2 billion m³ per day. The model's performance was evaluated using a set of ground truth data. The detected WWTPs were used to estimate GHG emissions. The estimated GHG emissions were used to calculate the carbon footprint of WWTPs. The carbon footprint of WWTPs was used to estimate the carbon footprint of the global WWTP sector. The carbon footprint of the global WWTP sector was used to estimate the carbon footprint of the global economy.

5. Future work plan

- Improve the model's performance by using more satellite imagery and ground truth data.
- Expand the model's scope to include other types of emissions, such as CO₂.
- Use the model to estimate GHG emissions from other types of facilities, such as power plants.
- Use the model to estimate the carbon footprint of the global economy.

For the past 16 months, Aryan has been working with WattTime & Climate TRACE on harnessing satellite imagery and machine learning to locate waste water treatment plants globally and estimate emissions for the located facilities. Aryan has been invited to present his research at the American Geophysical Union (AGU) Fall Session 2023.

SAANVI DHINGRA - DIANA AWARD RECIPIENT

COMMUNITY OUTREACH
REUSABLE SANITARY PAD - WELL BEING STORY
SDG 3 – Good Health and Well Being

ROLL OF HONOUR 2023
Meet the new generation of Diana Award recipients

SAANVI DHINGRA
CINDERELLA'S GOT WINGS_INDIA_17

Saanvi founded the non-profit organisation 'Cinderella's Got Wings' in June 2021 to empower underprivileged girls by providing them with financial education and teaching them basic skills like sewing. They also launched a campaign to teach underprivileged women how to make reusable sanitary napkins. Saanvi has chapters of the organisation located globally, and the organisation has sold over 5000 products and distributed more than 30,000 reusable sanitary napkins. They are heavily involved in community service, have authored a book, and is the Deputy Secretary General of their school's Model United Nations. Saanvi has instilled a responsible attitude and developed managerial, administrative, and negotiating skills.

COP28 - ARTWORK

The artworks of Indian students selected for display at the COP28 from among those submitted from 25 countries. The art work of Akshat Singh from Suncity School was chosen to be printed as post cards. Kudos to all the wonderful artists who participated and expressed their thoughts, ideas and anguish in the form of art

DU INTER COLLEGE CHESS CHAMPIONSHIP 2023
8th DECEMBER TO 12th DECEMBER 2023

SRCC Women Chess Team won Gold in the DU Inter college Chess Championship 2023 under the captaincy of WFM Tanishka Kotia. Championship held from 8th Dec to 12th Dec 2023

Everest Base Camp at 5364 meters (18000 feet)
on November 3, 2023

We cannot lower the mountain, therefore we must elevate ourselves." – Todd Skinner

Grade VI student Adayayan Sharma from Suncity School - 54 reached the Everest Base Camp at 5364 meters (18,000 feet) on November 3, 2023.

He's among the youngest to achieve this feat, completing the challenging trek in 8 days and with 5 more days to descend. Bravo!

Rashtrapati Bhavan Art & Museum section organized an Artist-in-Residency programme. RENUKA S. GULATI one of the 13 artists invited from all over India to participate in that programme. The Theme was cultural aspects of Bharat. It was a great honor to be felicitated by H.E. Excelancy President DROUPADI MURMU
